

## DES-6332 Dumps Updated Apr 11, 2022 Practice Test and 122 unique questions [Q69-Q90]

DES-6332 Dumps Updated Apr 11, 2022 Practice Test and 122 unique questions  
2022 Latest 100% Exam Passing Ratio - DES-6332 Dumps PDF

### Certification Overview

The Specialist - Systems Administrator, VxRail Appliance certification provides individuals with an opportunity to verify their knowledge of hyper-converged infrastructures. Also, it proves familiarity with VxRail Appliance, which is the product of choice when IT professionals want to scale business operations by leveraging their chief resources. Thus, this learning path satisfies one's desire to embrace emerging trends within the field of information technology.

Note that to meet the qualification criteria for the exam and certificate, you must start by obtaining one of the associate-level certifications by Dell focused on either converged systems and hybrid cloud or cloud infrastructure and services.

**Recommended Revision Books** Apart from completing the official course, exam-takers also may choose to study with revision books that are readily available from popular sellers such as Amazon. Some of the most trusted and useful options are the following: **Implementing VxRail HCI Solutions: A complete guide to VxRail Appliance administration and configuration by Victor Wu** This is another excellent choice of study material that focuses on enhancing your ability to administer, deploy, design, and plan most of the solutions in VxRail Appliance. The content of this revision guide is centered on giving you comprehensive information about planning and designing the VxRail Appliance, mastering VxRail lifecycle management and

administration, and exploring the migration methodologies available in these systems. The role of hyperconverged infrastructure in modern IT environments cannot be stressed enough. And thus recruiters will be looking for competent IT professionals who can manage such technologies. Fortunately, this book aims to streamline your skills when it comes to the operations that involve storage and computing using the HCI solutions. When reading it, you will learn more about the components of the VxRail Appliance and the role it plays in operational simplicity, automation, and lifecycle management. The book also discloses the principles of setting up hardware and software requirements, expanding the VxRail cluster, monitoring the status of VxRail appliances, choosing the best practices for the configuration of vSAN, and many more. By giving a sneak preview of the VxRail Appliance components and the system architecture, you will instantly understand why this solution is a valuable tool in many IT departments and how it compares to traditional storage solutions and servers. Once completed it, you will be confident enough to apply for various IT jobs that will require you to manage the VxRail System, including the tasks related to planning, deployment, administration, and design. **Dell EMC VxRail System TechBook** With this material, exam candidates have an opportunity to learn all the ins and outs of the VxRail system's concepts and architectures. It also includes information on hyperconverged infrastructure and its impact on transformations as well as observes how VxRail can be related to VMware vSAN. Some of the major topics included in this document are VxRail solution, networking, ecosystem, hardware, licensing, and others. **Dell EMC VxRail Administrator Guide, Version 7.0.x from April 2020** This material is a complete guide for those willing to become VxRail administrators. Its content is divided into eight broad chapters, covering everything you need to know to succeed in this role. Starting with an architecture overview and planning for networking, this guide proceeds to the concepts of licensing, the management of passwords and accounts, hardware, and many more. Administrative tasks and specifics of using the VxRail Manager Plugin for VMware vCenter are covered as well.

**DES-6332 Exam Overview** When sitting for **DES-6332 exam**, the candidates will face **75 questions that should be answered within 2 hours. Students who score 63% and more will be given the certification. To succeed in the test on the first attempt, one needs to have proper experience with the following solutions:** - VMware vCenter 6.7- VMware vSAN 6.7- VMware Spheres 6.7- Dell EMC PowerEdge Servers- Dell EMC VxRail Appliance 4.7 **NEW QUESTION 69**

A VxRail Stretched cluster deployment with eight nodes at each data site is being proposed. What is the latency requirement between each data site and the Witness site?

- \* Less than 5 ms
- \* Less than 10 ms
- \* Less than 100 ms
- \* Less than 200 ms

#### **NEW QUESTION 70**

A failure occurs while upgrading a VxRail cluster.

Which log file should be analyzed?

- \* loudmouth.log
- \* platform\_svc.log
- \* lcm-web.log
- \* marvin.log

#### **NEW QUESTION 71**

A VxRail is experiencing issues The administrator decides to contact Dell EMC Support Where in VxRail Manager can the administrator generate information needed for the support call?

- \* Config > Generate Support Bundle
- \* Health > General > Generate Support Bundle
- \* Support > Generate New Log Bundle
- \* Config > General > Generate New Log Bundle

### NEW QUESTION 72

A VxRail administrator has been informed by Dell EMC that an Internet software upgrade is available for their VxRail cluster. The administrator logs into VxRail Manager. VxRail Manager shows only the Local Upgrade option and not the Internet Upgrade option.

What is a possible reason?

- \* The VxRail Manager user has insufficient privileges
- \* Workstation accessing VxRail Manager does not have Internet connectivity
- \* Secure Remote Services has not been enabled
- \* VxRail Manager VM does not have Internet connectivity

### NEW QUESTION 73

Which tool is used to deploy VxRail?

- \* vRealize Operations Manager
- \* vCenter Server
- \* VxRail Manager
- \* Mobile Build Server

### NEW QUESTION 74

An environment has two VxRail clusters with the following hardware configuration:

- \* Cluster-A is using FTT = 2 and FTM = Erasure Coding
- \* Cluster-B is using FTT = 2 and FTM = Mirroring

A 100 GB VM is planned to be vMotioned from Cluster-A to Cluster-B.

How much more vSAN capacity is consumed in Cluster-B than in Cluster-A?

- \* 0 GB: consumption is unchanged
- \* 100 GB
- \* 150 GB
- \* 167 GB

### NEW QUESTION 75

VxRail 4.5.200 has been deployed with the VxRail-deployed vCenter. What is the name of the vCenter datacenter for the newly deployed VxRail cluster?

- \* Marvin-Datacenter
- \* VxRail-Datacenter
- \* VxRail-Virtual-SAN
- \* Datacenter name used during deployment

### NEW QUESTION 76

A VxRail has been configured with the VxRail-deployed vCenter Server option. Which service VMs can be optionally hosted on the VxRail cluster?

- \* VxRail Manager vCenter Server and Platform Services Controller
- \* VxRail Manager and Secure Remote Services/VE

- \* vCenter Server, Platform Services Controller, and Secure Remote Services/VE
- \* vRealize Log Insight and Secure Remote ServicesA/E

### NEW QUESTION 77

What is a consideration when planning for expansion of an existing 4 node all-flash VxRail Cluster?

- \* New nodes can contain hybrid, all-flash, or NVMe disks
- \* Multiple new nodes can be added at the same time
- \* New nodes must be identical to the existing nodes
- \* New nodes can be any processor family

### NEW QUESTION 78

What is the minimum number of nodes required to build a VxRail 4 5 cluster?

- \* 2
- \* 3
- \* 4
- \* 5

### NEW QUESTION 79

There is a request to add two new disks to an existing VM residing on a VxRail vSAN that you manage One disk is 250 GB and the other is 500 GB The VM is using the vSAN default storage policy.

How many vSAN objects will be created?

- \* 2
- \* 3
- \* 6
- \* 9

### NEW QUESTION 80

How much capacity of vSphere Data Protection is provided with a VxRail appliance?

- \* 1 TB
- \* 8 TB
- \* 10 TB
- \* 16 TB

Explanation/Reference: <https://www.emc.com/collateral/white-paper/h15602-dell-emc-data-protection-vxrail.pdf> (6)

### NEW QUESTION 81

When does vSAN deduplication occur in a VxRail cluster?

- \* During writes from the host to the cache tier
- \* During destage from the cache tier to the capacity tier
- \* During writes from the host to the capacity tier
- \* During destage from the capacity tier to the cache tier

### NEW QUESTION 82

A VxRail deployment has eight nodes. The VxRail administrator does not find any compatible datastores when trying to create a

storage policy with FTT=2 and FTM=Erasure Coding.

What is the likely reason?

- \* vSAN datastore used capacity is above 80%
- \* Erasure coding is only supported on all-flash systems
- \* vSAN capacity reserve has been enabled
- \* Fault domains have not been configured yet

### NEW QUESTION 83

How many RecoverPoint for Virtual Machines licenses are included, per VxRail V Series node?

- \* 1
- \* 4
- \* 5
- \* 15

### NEW QUESTION 84

Which tool is used to deploy VxRail?

- \* vRealize Operations Manager
- \* vCenter Server
- \* VxRail Manager
- \* Mobile Build Server

Explanation/Reference: <https://www.dell.com/resources/en-us/asset/technical-guides-support-information/products/converged-infrastructure/docu86660.pdf>

### NEW QUESTION 85

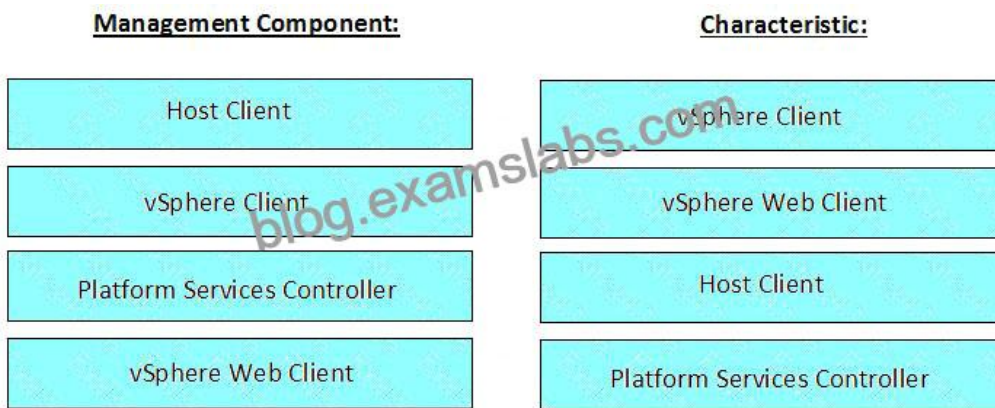

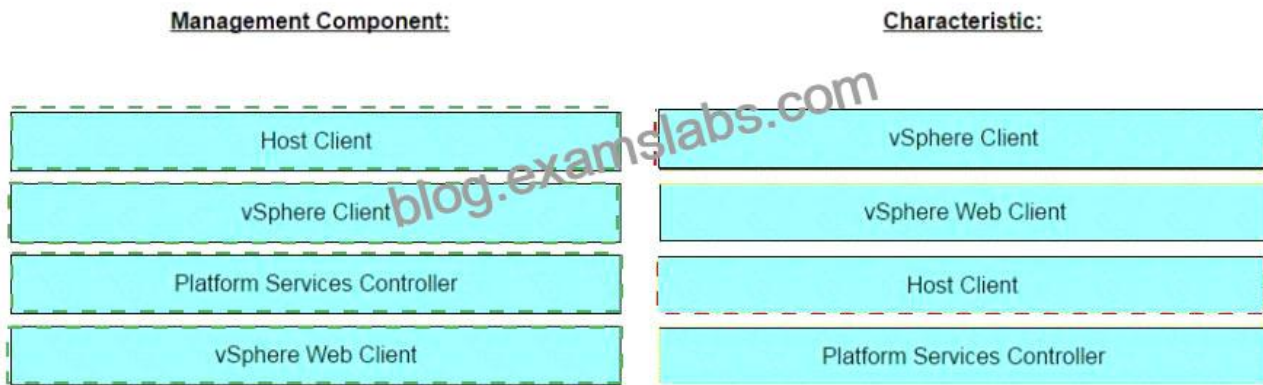

Match each management component with its characteristic

#### Management Component:

Host Client
vSphere Client
Platform Services Controller
vSphere Web Client

#### Characteristic:

Full vCenter functionality
HTML5-based
Responsible for user authentication
Used when not connected to vCenter

### NEW QUESTION 86

A VxRail system administrator has been tasked to add the support account to all of the 50 VxRail clusters. The administrator is using API calls but is receiving 403 error codes.

What is the likely issue?

- \* Username/password is not recognized
- \* User account does not have sufficient privileges
- \* Support account credentials provided are not valid
- \* Call has failed with internal errors

### NEW QUESTION 87

When needed, the vSAN might also break large objects into multiple components. What is the maximum size of a component?

- \* 63 GB
- \* 127 GB
- \* 255 GB
- \* 511 GB

Explanation/Reference: <https://digitalthoughtdisruption.com/2019/03/16/performance-tuning-your-vsan-environment/>

### NEW QUESTION 88

What is a consideration when expanding a vSAN disk group in a VxRail cluster?

- \* vSAN licensing must be applied to the VxRail cluster
- \* vSAN performance will be negatively impacted during expansion
- \* Deduplication and compression must be disabled for the disk group
- \* At least one capacity disk must be added along with a cache disk

#### **NEW QUESTION 89**

In which deployment scenario could an internal vCenter with an internal DNS deployment model be used?

- \* Stretched cluster sites
- \* Public cloud sites
- \* 2-node cluster sites
- \* DMZ sites

#### **NEW QUESTION 90**

A company has bought VxRail V Series appliances with PCIe network cards. How can the PCIe NIC ports be configured in VxRail for data traffic?

- \* Create new Standard or DV switch and add these NICs as uplinks to carry both vMotion and VM network traffic
- \* During initial VxRail setup the NIC ports would be configured automatically to carry VM network traffic
- \* Create new Standard or DV switch and add these NICs as uplinks to carry VM network traffic
- \* During initial VxRail setup the NIC ports would be configured automatically to carry both vMotion and VM network traffic
