Solution: An unused API token expires after 30 days.

- \* Yes
- \* No

Explanation

Token expiration and deactivationTokens expire automatically after a certain period and can also be deactivated at any time.

Token expirationTokens are valid for 30 days from creation or last use, so that the 30 day expiration automatically refreshes with each API call.

Tokens that aren't used for 30 days expire.

The 30-day period is currently fixed and can't be changed for your organization.

<https://developer.okta.com/docs/guides/create-an-api-token/token-expiration-deactivation/>
