# [Q40-Q60 Get 100% Passing Success With True C_IBP_2111 Exam! [May-2022

Get 100% Passing Success With True C_IBP_2111 Exam! [May-2022 SAP C_IBP_2111 PDF Questions - Exceptional Practice To SAP Certified Application Associate - SAP Integrated Business Planning

SAP C_IBP_2111 Exam Syllabus Topics:

TopicDetailsTopic 1- Display, create, copy, edit, check, and activate a planning area- General Configuration of a Planning Area
Topic 2- Create and use key figures and attributes- Key Figures & AttributesTopic 3- Describe the benefits of implementing SAP's
    Integrated Business Planning solution- Demand Planning. Solution Architecture. S&OP ReviewTopic 4- Define and view
    information with user-defined charts and dashboards- Analytics and Reporting

NO.40 You want to display and edit data in different units of measure (UOM). Which of the following must you consider before you use UOM? Note: There are 3 correct Answers to this question.

* Analytics provide the user with the option to select the target unit of measure.
* Unit of measure is an attribute of a master data type, such as Product.
* Units of measure are usually not time-dependent.
* Units of measure are usually not time-independent.
* Conversion to the target unit of measure is handled by functionality of SAP IBP Excel UI

NO.41 NO.53 Which calculations can be processed within the pre-processing step in the forecasting model? Note:

There are 2 correct Answers to this question.

* Rounding can be executed for the sales history.
* Missing Values can be substituted.
* Promotion Sales Lift Ups can be deleted.
* Correlations can be evaluated.

NO.42 When you promote calculated and approved inventory parameters from SAP IBP for inventory, what other IBP modules can be receiving them? Note: There are 2 correct Answers to this question.
* SAP IBP for sales and operations
* SAP IBP for response and supply
* SAP IBP for demand
* DDMRP

NO.43 You have set up a planning area and data is available. You adjust the necessary time profile settings and run the consistency check. Which settings can you change and still run a successful consistency check? Note:

There are 2 correct Answers to this question.
* Change the past and future horizon of the levels in the time profile.
* Remove an attribute assigned to the time profile level if the attribute is used in a planning level.
* Add a new time profile level to the time profile.
* Change the description of the attributes in the time profile.

NO.44 What actions can be performed in the Advanced Dashboards application? Note: There are 3 correct Answers to this question.
* Rename the charts.
* Add process templates.
* Organize charts.
* Display all assigned analytics on a single UI.
* Link two analytics charts.

NO.45 Which of the following stages can be modeled using scenarios from the S&OP planning cycle? Note:

There are 2 correct Answers to this question.
* Demand sensing stage
* Data input review for inventory
* Demand review
* Demand-supply balancing

NO.46 You are modeling a substitution scenario associated with a promotion. What are some of the Master Data parameters that you need to maintain to ensure desired results generated by the optimizer? Note: There are 2 correct Answers to this question.
* Flag ‘Disable Substitution of Location Products
* Loc-Prod Subst Valid-From Date
* Promotion duration
* Location Product Sub Cost Rate

NO.47 Which of the following key functions are supported by SAP IBP for sales and operations? Note: There are 2 correct Answers to this question.
* Manual creation of feasible constrained plans
* Finite resource planning
* A basic demand planning process
* An advanced demand planning process

NO.48 A time profile is defined with the levels of day, technical week, week, month, quarter, and year. What condition in configuration will allow you to have a different value in the current week, versus all other buckets?
* IF(“PERIODID2” =”$$PERIODID2CU$$…)
* IF(“PERIODID5” =”$$PERIODID5CU$$…)
* IF(“PERIODID4” =”$$PERIODID4CU$$…)
* IF(“PERIODID3” =”$$PERIODID3CU$$…)

NO.49 Model configuration allows the attributes of a master data type to be assigned as key figures. Which features are relevant for this type of object?
* This object contains user-defined criteria that monitor execution of business plans.
* This object provides a single value for a unique planning combination.
* This type of key figure is not usually stored and it cannot be set to editable.
* This object is not exposed to the user in planning views or modeling.

NO.50 Which of the following configuration options are part of the new key figure creation process? Note:

There are 3 correct Answers to this question.
* Hiding or displaying totals for the key figure
* Enabling planning notes for the key figure
* Setting permitted planning levels
* Setting disaggregation logic for the key figure
* Enabling fixing for the key figure

NO.51 What is a prerequisite for modeling outsourced manufacturers with production capacity?
* Model production costs for internal and external production resources to model priority.
* Model target inventory and stocks at the outsourced location.
* Ensure that multiple modes of transportation are set up.
* Use production lead times and offsets to manage components at the outsourced location.

NO.52 You have set up a planning area and data is available. You adjust the necessary time profile settings and run the consistency check. Which settings can you change and still run a successful consistency check?

Note: There are 2 correct Answers to this question.
* Change the past and future horizon of the levels in the time profile.
* Remove an attribute assigned to the time profile level if the attribute is used in a planning level.
* Add a new time profile level to the time profile.
* Change the description of the attributes in the time profile.

NO.53 How many different time levels can be selected within one planning view?
* All time levels available in the time profile
* All time levels available in the time profile, restricted by global configuration parameter
* Only time levels from the base planning level of selected key figures
* Only base time levels of the planning area

NO.54 Which of the following functional areas are included in the out-of-the-box SAP Integrated Business Planning application for sales and operations? Note: There are 3 correct Answers to this question.
* Executive review
* Demand-driven materials requirement planning
* Rough-cut supply planning
* Consensus demand planning

* Finite resource capacities planning

NO.55 The Analytics Advanced app allows you to work with different types of charts. What can be the origin of the charts you can work with?
* SAP IBP VBA Add-in template
* Process Templates
* Custom Alerts
* Dashboards Advanced

NO.56 What function would you use to configure a year-to-date calculation?
* Rolling Aggregation
* Last Period Aggregation
* Cumulative Aggregation
* Dynamic Rolling Aggregation

NO.57 You define fixing for a key figure. Which of the following functions are available for this key figure? Note:

There are 2 correct Answers to this question.
* Fixing is possible for manually editable key figures.
* Fixing is possible for a certain quantity of a key figure value.
* Fixing is possible for a certain period, including all child values in the hierarchy.
* Fixing is possible for system editable key figures.

NO.58 Why would you set up a cascading filter in the planning view? Note: There are 2 correct Answers to this question.
* To filter attributes based on other attribute filters
* To filter using attributes that have a large number of values
* To filter data in an Application Job template
* To filter attributes based on specific values

NO.59 You are adding a value-based filter to a planning view. Which of the following conditions apply? Note: There are 3 correct Answers to this question.
* The alerts dashboard is not available if a value-based filter is set for the open planning view.
* These filters are always applied based on the values stored in the database.
* You can only apply one value-based filter per planning view.
* These filters can be used together with attribute totals in the same planning view.
* You can add (or delete) planning objects to a planning view after these filters are applied.

NO.60 What setting is mandatory in the Manage Lifecycle Planning app when introducing a new product?
* Define which phase-in and phase-out profiles can be used within Lifecycle Planning
* Define which key figure can be used as sales history for new products
* Define at least one attribute of the planning area which represents the Product ID
* Define which is the attribute ID for the Lifecycle profiles
