Verified MTCNA exam dumps Q&As with Correct 216 Questions and Answers

How to study the MikroTik Certified Network Associate (MTCNA) Exam

Official leaning platforms of MikroTik are available along with **MTCNA exam dumps pdf**.

MikroTik organizes training events and has institutions around the globe. Training sessions for MikroTik are arranged and given at different locations around the world by MikroTik Training Centers. Network engineers, integrators, and managers who want to learn about the routing and management of wired and wireless networks using MikroTik RouterOS will be present.

MikroTik Training Centers (MTC) are independent organizations (companies or individuals) that, according to the official MikroTik Training Description, perform intensive public or private training sessions and qualification tests. MTCs are not connected in any way with each other or with MikroTik. They use their training materials and bear exclusive responsibility for the offered training sessions. Concerning their deals, please contact the MikroTik Training Centers directly.

MikroTik Academies (MA) are educational institutions that provide semester-based Internet networking courses to their academic students, such as universities, technical schools, colleges, vocational schools, and other educational institutions, using MikroTik RouterOS as a learning tool.

MTCNA exam dumps are available online that are, by far, the best-proven study materials. Students can test their understanding of the domain by taking the **MTCNA practice exams** online or by taking the official example test provided in the link that can be accessed from here.

MikroTik Certified Network Associate (MTCNA) Exam Certification Path

MTCNA is the first Level Certification that provides access to any MTCRE, MTCWE, MTCTCE, MTCUME, MTCSE, MTCSWE, MTCEWE, or MTCIPv6E second-level certification. MTCRE is required for MTCINE certification to be achieved. Hence the certification path is simple as MTCNA is the basic level certification. As a prerequisite of the exam, the students should have a strong knowledge of TCP/IP and subnet.

NO.58 In which order are the entries in Access List and Connect List processed?
* By Signal Strength Range
* By interface name
* In sequence order
* In a random order

NO.59 Destination NAT (chain dstnat, action dst-nat) can be used to:
* Change destination port
* Direct users from the Internet to a server within your local network
* Change source port
* Hide your local network from the Internet

NO.60 Which of the following Routes statuses are possible?
* A = Active
* C = Connected
* S = Static
* D = Drop

NO.61 What protocol is used for Ping and Trace route?
* DHCP
* IP
* TCP
* ICMP – ping
* UDP – trace route

NO.62 PPPoE server only works within one Ethernet broadcast domain that it is connected to. If there is a router between server and end-user host, it will not be able to create PPPoE tunnel to that PPPoE server.
* False
* True

NO.63 Where is a hub specified in the OSI model?
* Session layer
* Physical layer
* Data Link layer
* Application layer

NO.64 Mark all correct statements about /export (rsc file).
* Exports logs from /log print
* Exports full configuration of the router

* Exports only part of the configuration (for example /ip firewall)
* Exports scripts from /system script
* Exports files could not edited

NO.65 There are two wireless cards (wlan1 and wlan2) which are bridged together. On wlan1 card there is a setting

“Forwarding=no”. Choose the correct answer(s):
* Stations on wlan2 will be able to communicate with stations on wlan2
* Stations on wlan2 will be able to communicate with stations on wlan1
* Stations on wlan1 will be able to communicate with stations on wlan1
* To prevent communication between wlan1 and wlan2 one cannot use Bridge Filters
* Stations on wlan1 will be able to communicate with stations on wlan2

NO.66 Which of the following is used in standard 802.11 wireless networks?
* CSMA/CA
* CDMA
* FDD
* CSMA/CD

NO.67 What is the default protocol/port of (secure) winbox?
* UDP/5678
* TCP/22
* TCP/8291
* TCP/8080

NO.68 What protocol is used to find the hardware address of a local device?
* RARP
* ARP
* IP
* ICMP

NO.69 How many different priorities can be selected for queues in MikroTik RouterOS?
* 16
* 1
* 8
* 0

NO.70 What does the firewall action “Redirect” do? Select all true statements.
* Redirects a packet to a specified port on the router
* Redirects a packet to a specified IP
* Redirects a packet to the router
* Redirects a packet to a specified port on a host in the network

NO.71 Which features are removed when advanced-tools package is uninstalled?
* neighbors
* LCD support
* ip-scan
* ping
* netwatch
* bandwidth-test

NO.72 When adding a static route, you must always ensure that you add both the gateway and the interface.

* False

* True
