[Jul-2022 Lenovo DCP-315C Exam Basic Questions With Answers [Q10-Q29

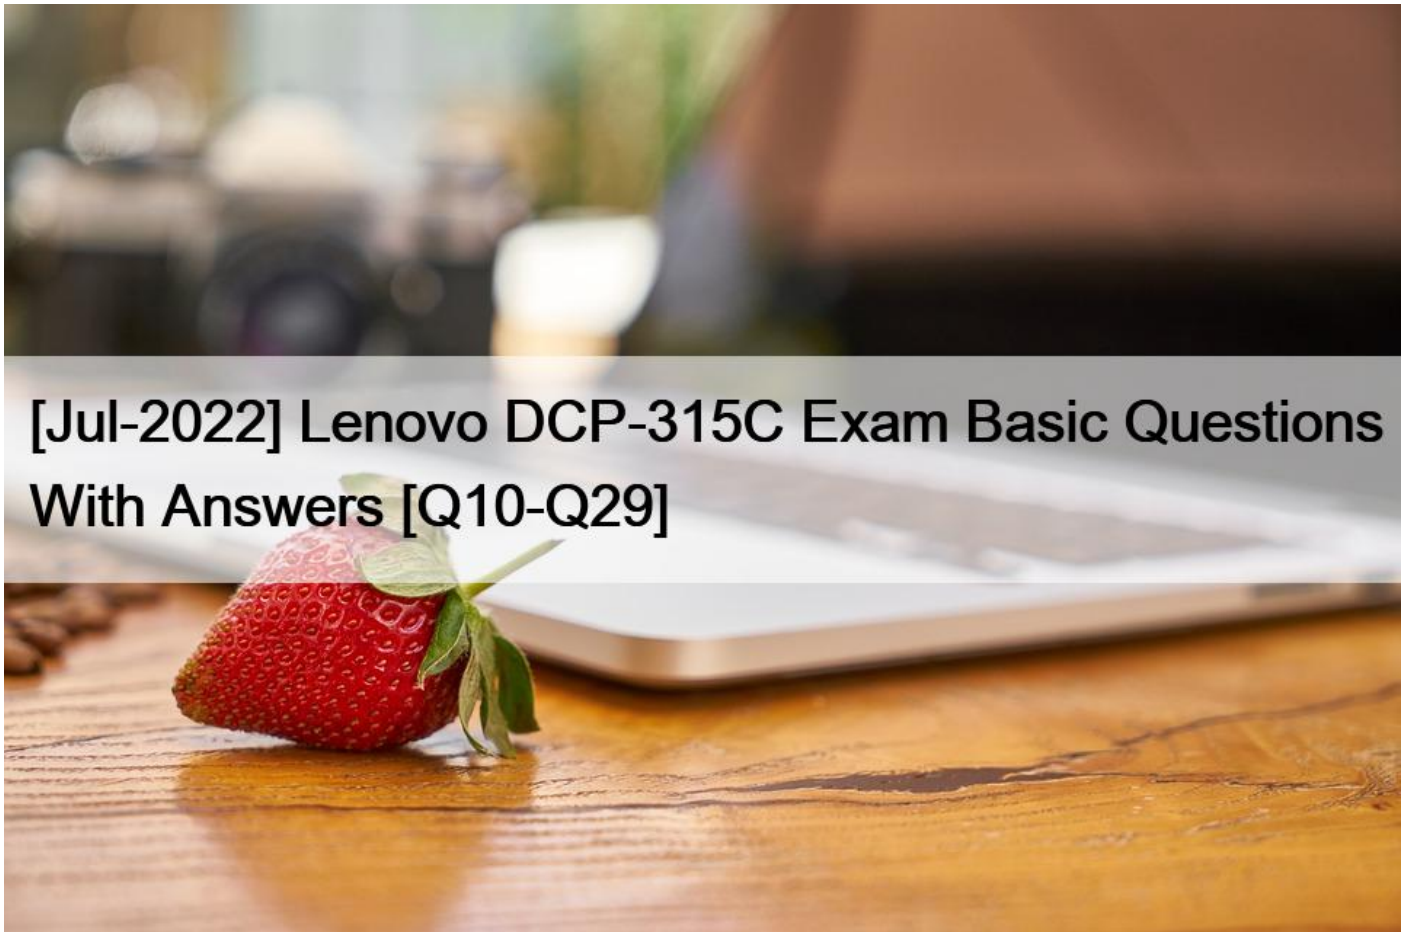

[Jul-2022] Lenovo DCP-315C Exam: Basic Questions With Answers
New 2022 Realistic Free Lenovo DCP-315C Exam Dump Questions and Answer

NEW QUESTION 10

Which Lenovo server features the flexible AnyBay design?
* SD650
* SR530
* SE350
* SR650
Explanation/Reference: https://lenovopress.com/lp1050.pdf

NEW QUESTION 11

What is included in ThinkAgile appliances that is not included with ThinkAgile certified nodes?
* shipping with rack
* bundle with services
* software licensing and deployment services

* ability to leverage customer’s existing licenses
Explanation/Reference: https://lenovopress.com/ds0046.pdf

NEW QUESTION 12

A customer has a requirement for new servers for a VDI environment. You determine that a server with support for six GPUs, PCIe Gen4 slots, and 32 NVMe drives will meet their needs.

Which server should you propose?
* SR590
* SR655
* SR635
* SR650
Explanation/Reference: https://lenovopress.com/lp1161-thinksystem-sr655-server (page 30)

NEW QUESTION 13

What is a characteristic of the ThinkSystem SE350 server?
* Supports up to 4 sockets
* Tolerates locations with high-dust and vibrations
* Supports up to 24 drives
* Supports Intel Xeon Scalable CPUs

NEW QUESTION 14

A client has an application system with two Oracle databases, one SQL server, and a file server. They plan to backup their data by disk-to-disk backup.

Which Lenovo Storage product or solution can meet their requirement?
* DM3000H
* DM3000H and SnapCenter
* a backup server and tape drive
* DE4000 system

NEW QUESTION 15

What is included in ThinkAgile appliances that is not included with ThinkAgile certified nodes?
* shipping with rack
* bundle with services
* software licensing and deployment services
* ability to leverage customer’s existing licenses
Reference:

https://lenovopress.com/ds0046.pdf

NEW QUESTION 16

Which three functions does the Flex Chassis Management Module provide for Flex Chassis components?

(Choose three.)
* Flex switch configuration for switch ports and VLANs
* OS provisioning for compute nodes
* Sets power policies and view power consumption history for chassis components
* Firmware updates for compute nodes
* Monitors the status of chassis components
* Power controls for compute nodes and switches
Explanation/Reference: https://flexsystem.lenovofiles.com/help/topic/com.ibm.acc.cmm.doc/dw1kt_cmm_ug_pdf.pdf

NEW QUESTION 17

Your customer is looking for a unified storage solution with the highest performance and lowest latency with the capability of storing cold data to cloud.

Which Lenovo Storage solution should you recommend?
* DM7000H with MetroCluster
* DE6000F with Dynamic Disk Pool
* DM7000F with FabricPool
* DE6000H with Thin Provisioning

NEW QUESTION 18

Which two operating modes are supported by DCPMM technology? (Choose two.)
* Buffer Mode
* Tiering Mode
* Memory Mode
* Cache Mode
* App Direct Mode
Explanation/Reference: https://lenovopress.com/lp1066-intel-optane-dc-persistent-memory

NEW QUESTION 19

Which three vendors are the Lenovo ThinkAgile SDI solutions integrated with? (Choose three.)
* SAP
* VMware
* SUSE
* Microsoft
* Red Hat
* Nutanix

NEW QUESTION 20

You are working with a retailer that wants to do a store refresh for hundreds of store locations distributed around the country. They want a server model in a tower format. Due to the small workload requirements, they want to use some of the less expensive processor SKUs such as the Core i3. The amount of system memory required for each server is 64 GB of memory, with no plans for expansion. Their storage needs are at least 30 TB, and they prefer SAS drives over SATA. One key requirement is for this system to have robust enterprise- class systems management capabilities with remote KVM, and virtual media mounting of ISO images is a must.

What is the most cost-efficient and recommended server for this customer?
* ST50 with XCC Advanced/Enterprise upgrade
* ST550 with XCC Advanced upgrade
* ST250 with XCC Advanced/Enterprise upgrade
* SR550 with XCC Standard
Explanation

NEW QUESTION 21

Which feature of the Carrier-Grade Flex System design is a requirement of the telecommunications industry?
* Has 3 hot-swap Chassis Management Modules
* Allows normal operations in frigid temperatures for up to four days
* Meets the needs of varying workloads with independently scalable IT resource pools
* Meets certification for operation in Earth Quake Zone 4 area
The chassis is ASHRAE 4 compliant, meaning it allows normal operation in temperatures of up to 45 °C (113 ° F), with temporary elevated temperature excursions of up to 55 °C (131 °F) for as long as 4 days. This is a key requirement for industries, such as the telecommunications industry where the harsher environments in central offices (COs) require IT equipment that operate on -48V DC power and can tolerate higher temperatures.

NEW QUESTION 22

Which ThinkAgile Certified Node supports heterogeneous nodes in a cluster?
* SXM
* MX
* HX
* VX
Explanation/Reference: https://www.lancom.si/media/filer_public/b9/f1/b9f138d2-020f-4de9-addd-591bdecd0ad3/lancom_-

_5_novih_sistemskih_resitev_-_lenovo_-_ales_simoncic.pdf

NEW QUESTION 23

A customer is planning a new environment for big data analytics. Each node uses an SR550 server with 12 internal drives. There is a requirement for each server to have access to an additional 20 direct attached drives.

Which Lenovo Storage system meets their needs?
* DE2000H
* DM3000H

* D1224
* D1212
Reference:

https://lenovopress.com/lp0512-lenovo-storage-d1212-d1224-drive-enclosures

NEW QUESTION 24

A customer database workload requires 125 drives. They have a SAN with DB610S switches. At the second site, for synchronous mirroring they will use a DE6000H system.

Which Lenovo storage system will meet this customer’s needs at the local site?
* DM7000H
* DE2000H
* DE4000F
* DM5000F
Reference:

http://www.state.wv.us/admin/purchase/Bids/FY2020/B_1600_SOS2000000002_05.pdf

NEW QUESTION 25

Which device can supply power to cameras and other low-power devices over a network cable?
* NE1032
* CE0152PB
* NE0152T
* CE0128TB

NEW QUESTION 26

An existing Flex customer would like to buy a 4-socket server.

Which Lenovo server should you recommend?
* SR950
* SN850
* SR850
* SD530
Reference:

https://www.lenovo.com/pk/en/data-center/servers/flex-blade-servers/compute-nodes/c/compute- nodes

NEW QUESTION 27

A customer needs shared block storage for an application. They also want to move their Windows and Linux shared drives onto a storage system. The space required will not exceed 900 TB, and they do not have a storage-intensive workload. Price is an important concern.

Which storage system meets their needs?
* DM3000H
* DE2000H

* DM5000F
* DE4000F
Reference:

https://lenovopress.com/lp0911-lenovo-thinksystem-dm5000f-unified-flash-storage-array

NEW QUESTION 28

Your customer needs servers that support high storage capacity for an SDI environment designed around the ESXi hypervisor. The customer wants 2.5″ drives to decrease the power requirement.

Which solution should you propose?
* SXM4200
* HX1320
* CP4000
* VX5000

NEW QUESTION 29

Which Lenovo support service category will provide a customer with 4-hour response times, 24 hours per day, 7 days per week in the event of a disk failure?
* Basic
* Advanced
* Essential
* Foundation
