[Sep-2022] Pass C-IBP-2205 Exam in First Attempt UpdatedC-IBP-2205 ExamsLabs Exam Question
SAP Certified Application Associate Dumps C-IBP-2205 Exam for Full Questions - Exam Study Guide

QUESTION 45

Which of the following solutions are feasible when using the time series supply optimizer? Note: There are 3 correct Answers to this question.

- * Violation of minimum aggregated inventory values
- * Not adhering to maximum transport values
- * Not-fully satisfied demands
- * Not respecting production capacity
- * Violation of minimum resource utilization

QUESTION 46

Which header name displays are available in the Report Options menu of the SAP IBP Excel interface?

Note: There are 2 correct Answers to this question.

- * Changed member names that the user had created
- * Caption, as defined in configuration for the default name
- * Business meaning, as defined in configuration
- * Full unique name including the dimension and technical name

QUESTION 47

Which of the following stages can be modeled using scenarios from the S&OP planning cycle? Note:

There are 2 correct Answers to this question.

- * Demand sensing stage
- * Data input review for inventory
- * Demand review
- * Demand-supply balancing

QUESTION 48

Which library is used by the forecasting engine for the demand sensing algorithm?

- * Predictive analytics library
- * Demand library
- * Supply chain algorithm library
- * Heuristics library

QUESTION 49

Which of the following modes can you use when creating a constrained plan? Note: There are 2 correct Answers to this question.

- * Profit maximization
- * Delivery maximization
- * Resource maximization
- * Production maximization

QUESTION 50

Which of the following approaches could you take to reduce run times of an optimizer? Note: There are

2 correct Answers to this question.

- * Use a subnetwork ID to reduce the size of the problem.
- * Split into multiple planning areas to support weekly vs. daily planning needs.
- * Avoid using telescopic time buckets.
- * Increase the use of incremental lot size beyond the frozen horizon.

QUESTION 51

You are configuring disaggregation for the KF1 key figure. Which methods can you apply? Note: There are 3 correct Answers to this question.

- * Disaggregation according to an equal split
- * Disaggregation in batch triggered by an application job
- * An internal system-generated disaggregation
- * Proportional disaggregation by using KF2 in the expression

- * Disaggregation according to a user-defined expression

QUESTION 52

You have set up infinite S&OP heuristics for unconstrained planning. What must you do to model inputs as constraints? Note: There are 2 correct Answers to this question.

- * Enter transportation lead times.
- * Model adjusted transport receipts.
- * Create product substitutions.
- * Set minimum and maximum lot sizes.

QUESTION 53

Which of the following key functions are supported by SAP IBP for sales and operations? Note: There are

2 correct Answers to this question.

- * Manual creation of feasible constrained plans
- * Finite resource planning
- * A basic demand planning process
- * An advanced demand planning process

QUESTION 54

You are working to realign the data due to a recent warehouse closure. What should you be aware of in regards to configuration of realignment steps? Note: There are 2 correct Answers to this question.

- * The name of the realignment step should be no longer than 20 characters.
- * If a realignment step fails, subsequent steps are not processed.
- * The number of steps in realignment run is limited to 255.
- * The realignment step status must be set to In Review for it to be executed.

QUESTION 55

Which of the following functional areas are included in the out-of-the-box SAP Integrated Business Planning application for sales and operations? Note: There are 3 correct Answers to this question.

- * Executive review
- * Demand-driven materials requirement planning
- * Rough-cut supply planning
- * Consensus demand planning
- * Finite resource capacities planning

QUESTION 56

Model configuration allows the attributes of a master data type to be assigned as key figures. Which features are relevant for this type of object?

- * This object contains user-defined criteria that monitor execution of business plans.
- * This object provides a single value for a unique planning combination.
- * This type of key figure is not usually stored and it cannot be set to editable.
- * This object is not exposed to the user in planning views or modeling.

QUESTION 57

NO.21 For which of the following application jobs can you enter planning filters as parameters? Note:

There are 2 correct Answers to this question.

- * Purge Non-Conforming Data
- * Create Time Periods for Time Profiles
- * Purge Key Figure Data
- * Purge Master Data

QUESTION 58

What are some of the prerequisites for configuring a planning area that results in a successful consistency check? Note: There are 2 correct Answers to this question.

- * Configure at most two input key figures on the same planning level in a key figure calculation.
- * Assign the compound master data type and its component master data types.
- * Specify a planning horizon in the planning area for each level of the assigned time profile.
- * Configure at least one calculated key figure for the planning area.

QUESTION 59

You are modeling a substitution scenario associated with a promotion. What are some of the Master Data parameters that you need to maintain to ensure desired results generated by the optimizer? Note:

There are 2 correct Answers to this question.

- * Flag ‘Disable Substitution of Location Products
- * Loc-Prod Subst Valid-From Date
- * Promotion duration
- * Location Product Sub Cost Rate

QUESTION 60

What function would you use to configure a year-to-date calculation?

- * Rolling Aggregation
- * Last Period Aggregation
- * Cumulative Aggregation
- * Dynamic Rolling Aggregation
