- * AVG
- * COUNT
- * ADD
- * SUM
- * SUBTRACT

Q29. What are some benefits of using metrics in SAP Signavio Process Intelligence? Note: There are 2 correct answers to this question.

- * Define the purpose of an investigation
- * Share metrics between workspaces
- * Visualize important KPIs in the Process Discovery Widget
- * Add and customize metrics from the library

Q30. What is the Diagram Widget used for? Note: There are 2 correct answers to this question.

- * To show processes that are in the Signavio Process Manager workspace
- * To show Process Documentation
- * To show a Workflow
- * To show a Customer Journey Map

Q31. What is the benefit of an Event-based Gateway?

- * It limits the outgoing conditions to a maximum of three.

- * It reacts immediately to external occasions when they occur.
- * It allows tasks to be done simultaneously.
- * It ensures that all tasks have been completed.

Q32. What elements are part of the official BPMN 2.0 notation?Note: There are 2 correct answers to this question.

- * Lane
- * Additional Participant
- * Pool
- * Stakeholders

Q33. What are use cases for a Parallel Gateway?Note: There are 2 correct answers to this question.

- * Ensure that at least one task is completed before proceeding with the next.
- * Assign different tasks at the same time.
- * Ensure that unassigned tasks can be skipped.
- * Ensure that all tasks are completed before proceeding with the next.

Q34. Which Widget is automatically created after creating a new investigation?

- * Process Conformance
- * Variant Explorer
- * Value
- * Process Discovery

Q35. What are the benefits of using a data model in the ETL Data Pipeline configuration?Note: There are 2 correct answers to this question.

- * Defines how ETL extracts and transforms data
- * Defines where to load the data
- * Defines which process KPIs are related to which data table
- * Defines which process models are connected to the data

Q36. What does process transparency mean in the context of Business Process Management?Note: There are 2 correct answers to this question.

- * Structure all processes and provide drill-down navigation from the value-chain level to the actual process.
- * Highlight departmental boundaries in larger process models.
- * Model and design the processes to grasp all relevant information at a glance.
- * Automate a process by using a workflow system.

Q37. How does the splitting Inclusive Gateway (OR) work?Note: There are 2 correct answers to this question.

- * It triggers only one of all outgoing sequence flows, if all conditions apply.
- * It triggers all outgoing sequence flows, if only one condition applies.
- * It triggers a few of all possible outgoing sequence flows, if several conditions apply.
- * It triggers one outgoing sequence flow, if a condition applies.

Q38. How can a metric be created in SAP Signavio Process Intelligence?Note: There are 3 correct answers to this question.

- * Import a metric from SAP Signavio Process Manager.
- * Create a JSON file.
- * Create a custom metric.
- * Add a metric from the library.
- * Import a metric based on a JSON file.

Q39. Which components are included to configure ETL data pipelines in SAP Signavio Process Intelligence?Note: There are 3

correct answers to this question.

- * Data Source Management
- * Data Relation Management
- * Data Model Management
- * Data Integration Management
- * Data Object Management

Q40. What can the Analytics menu in SAP Signavio Process Governance be used for?

- * To show uncompleted tasks of a case
- * To compare different versions of the same workflow
- * To create and share reports that provide details for cases
- * To transfer data to the workflow

Q41. What are some key topics of the SAP Signavio Process Manager? Note: There are 3 correct answers to this question.

- * Process Data Analysis
- * Feedback Handling
- * Process Documentation
- * Process Automation
- * Process Publishing

Q42. What do Timer Events and Conditional Events have in common?

- * They can only be throwing-type events.
- * They can only be used as end events.
- * They can only be used as start events.
- * They can only be catching-type events.

Q43. How can you capture relevant process tasks in a table-based approach?

- * Use Graphical Editor
- * Use Process Documentation Template
- * Use Process Reporting
- * Use QuickModel
