Regular Free Updates H19-315-ENU Dumps Real Exam Questions Test Engine

Q175. What are the components of 100G key technologies? (Multiple choice)
* WDM side interface technology
* OTN Processing Technology
* Client-Side Interface Technology
* Dispersion compensation technology

Q176. Which of the following are commonly used techniques for extending spans and spans? (Multiple choice)
* Optical Amplification Technology
* FEC Technology
* Laser automatic shutdown technology

Q177. In the Internet era, with the development and popularization of cloud platforms, the traffic model of the campus network has undergone great changes. From the original horizontal traffic to vertical traffic, more and more traffic comes from outside the local area network.
* TRUE
* FALSE

Q178. Comparing with the PTN solutions of your friends, which of the following are the differentiated competitive advantages of

our enhanced MSTP? (Multiple choice)
* Physical isolation of hard pipes
* Support 1588V2 features;
* Support dual plane;
* Support E1 interface
* Line bandwidth can be smoothly upgraded

Q179. Financial data center interconnection is not sensitive to transmission delay.
* TRUE
* FALSE

Q180. Among the following devices, which are the smart all-in-one machine of Huawei full-light network? (Multiple Choice)
* P622E
* T672E
* EG8084P-300G1
* EG8084P-300H1

Q181. What kind of solution is generally used by DCI?
* SDH
* MSTP
* PTN
* OTN(WDM)

Q182. Among the following ONU, which models that do not support the POE function?
* P613E
* P612E
* P602E
* EG8084P

Q183. Which of the following are not light releases? (Multiple choice)
* OAU
* OTU
* OBU
* OTM

Q184. Financial dual-living data center transmission interconnection faces _____ major challenges.
* 1
* 2
* 3
* 4

Q185. Which of the following is not in line with the characteristic description of the full -light park solution?
* Long -distance coverage, suitable for large comprehensive parks
* Click to multi -point access, suitable for high -secret wired access scenarios
* Simple architecture, effectively reduce deployment and operation and maintenance costs
* ONU comes with Wi-Fi, which is suitable for high-secret wireless access such as stadiums, conference halls, etc.

Q186. Which is Huawei’s first transmission product in the highway section access solution?
* OSN3500
* OSN580

* OSN1800
* OSN7500

Q187. Which is the ONU user-side interface commonly used by Radio and Television ONU?
* 4FE
* 4GE
* 1GE+3FE
* 2GE+2FE

Q188. In the access-networking of the network, which type ONT can be used for double-fiber three-wave (two-in-one) model?
* HG8040F5
* EG8040C
* HG8546M
* HG8042

Q189. Huawei’s power distribution network ONU does not support the function of preventing illegal access of terminals.
* TRUE
* FALSE

Q190. What is the biggest difference between different types of amplifiers?
* Different gains
* Noise Figure
* Different occupation
* Different slots

Q191. Which of the following products is the main product in Huawei’s smart city transmission network solution?
* OSN3500
* OSN8800
* OSN9800
* OSN7500

Q192. How many service slots does the OSN9800 M24 subrack have?
* 32
* 12/24
* 24
* 12

Q193. The name of MS-OTN is Multi-Service Optical Transport Network.
* TRUE
* FALSE

Q194. In the following communication systems of rail transit, which systems can our transmission and access products participate in? (Multiple choice)
* PIS system;
* Transmission System
* Vehicle-to-ground wireless dump system
* Video Surveillance System
