Dumps of 1Y0-341 Cover all the requirements of the Real Exam [Q13-Q37

Dumps of 1Y0-341 Cover all the requirements of the Real Exam Correct Practice Tests of 1Y0-341 Dumps with Practice Exam

The benefits in Obtaining the Citrix ADC Advanced Concepts - Security, Management and Optimization Certification - After getting confirmation, there are numerous items to have some expertise in like XenDesktop, Netscaler, XenServer, and XenApp- This 1Y0-341 test likewise frees the entryway up to different tracks of the Citrix Certification Programs- The test is a Citrix item arranged confirmation that approves your capacity to perform and investigate that particular item

What is the duration of the Citrix ADC Advanced Concepts - Security, Management and Optimization - Length of Examination: 90 minutes- Format: Multiple choices, multiple answers- Passing score: 61%- Number of Questions: 64

QUESTION 13

A Citrix Engineer has determined that users are able to access random URLs on a web site through bookmarks and by manually typing in the URLs to skip the pages required to reach that part of the website.

Which two checks can the engineer enable to prevent this attack? (Choose two.)

* Form Field Consistency

* Deny URL
* Start URL
* Buffer overflow
* HTML Cross-site scripting

QUESTION 14

Scenario: A Citrix Engineer is monitoring the environment with Citrix Application Management (ADM). Management has asked lota report of high-risk traffic to protected internal websites.

Which dashboard can the engineer use to generate the requested report?
* Transactions
* APP
* APP Security
* Users & Endpoints

QUESTION 15

Scenario: A Citrix Engineer has enabled Security insight and Web insight on NetScaler Management and Analytics System (NMAS). The engineer is NOT able to see data under the Analytics on NMAS, in spite of seeing hits on the APPFLOW policy.

Which log should the engineer check on NMAS to ensure that the information is sent from NetScaler?
* mps_afanalytics.log
* mps_perf.log
* mps_afdecoder.log
* nstriton.log

QUESTION 16

A Citrix Engineer needs to configure an application firewall profile to ensure that the images uploaded on the website are NOT malicious. The engineer needs to create a policy to filter the upload requests and ensure that they are in JPEG format. Which expression can the engineer use to fulfill this requirement?
* http.req.url.endswith (“.jpeg) &&http.req.method.eq (POST)
* http.req.url.contains (“.jpeg) &&http.req.method.eq (GET)
* http.req.url.endswith (“.jpeg) || http.req.method.eq (GET)
* http.req.header (“Content-Type”).contains (“image/jpeg”) || http.req.method.eq(POST)

QUESTION 17

Which action ensures that content is retrieved from the server of origin?
* CACHE
* MAY_CACHE
* NOCACHE
* MAY_NOCACHE
Explanation/Reference: https://docs.citrix.com/en-us/citrix-adc/current-release/optimization/integrated-caching/
configure-cookies-headers-and-polling.html

QUESTION 18

Scenario: A Citrix Engineer has configured the Signature file with new patterns and log strings and uploaded the file to Application

Firewall. However, after the upload, the Signature rules are NOT implemented.

What can the engineer modify to implement Signature rules?
* The Signature update URL should have an older version than the one on Application Firewall.
* The new Signature file should have new ID and version number.
* TheNetScaler version should be upgraded before upgrading the signatures.
* The Signature upgrade will take effect only after a restart.

QUESTION 19

Scenario: A Citrix Engineer created the policies in the attached exhibit.

Click the Exhibit button to view the list of policies.

Policy name	Priority	Expression	Profile	Goto Expression
Policy_A	100	CLIENT.IP.SRC.IN_SUBNET(192.168.10.0/24)	Policy_A	END
Policy_B	110	HTTP.REQ.HEADER("User-Agent").CONTAINS("Safari")	Policy_B	END
Policy_C	120	HTTP.REQ.URL.PATH.CONTAINS("password")	Policy_C	END
Policy_D	130	true	Policy_D	END

HTTP Request:

GET /resetpassword.htm HTTP/1.1

User-Agent: Mozilla/5.0 (Windows NT 6.1; WOW64; rv:64.0) Gecko/20100101 Firefox/64.0 Host: www.citrix.com
Accept-Language: en-us Accept-Encoding: gzip, deflate Connection: Keep-Alive Which profile will be applied to the above HTTP request?
* Profile_C
* Profile_D
* Profile_A
* Profile_B

QUESTION 20

A Citrix Engineer needs to configure an AppQoE action to deliver content from an alternate service. Which three parameters should the engineer configure to meet this requirement?

(Choose three.)
* TCP Profile
* Header Name
* Action Type
* Maximum Connections
* Alternate Content Path

QUESTION 21

Scenaho: A Citrix Engineer needs to block requests from a list of IP addresses in a database maintained by the Security team. The

Security team has built a web application that will send a response of either “Blocked” or “Allowed,” based on whether the given IP address is on the list. Which expression should the engineer use to extract the status for policy processing?

* HTTP.RES.CONTENT LENGTH.GT(0)
* HTTP.RES.HEADERf Connection”)
* HTTP.RES.STATUS
* HTTP.RES.BODY(1000)

QUESTION 22

A manager for a hospital billing system wants to display the last four digits of a credit card number when printing invoices.

Which credit card security action does this?

* X-Out
* Log
* Transform
* Block

QUESTION 23

Scenario: A Citrix Engineer discovers a security vulnerability in one of its websites. The engineer takes a header trace and checks the Application Firewall logs.

The following was found in part of the logs:

method=GET request = http://my.companysite.net/FFC/sc11.html msg=URL length (39) is greater than maximum allowed (20).cn1=707 cn2=402 cs1=owa_profile cs2=PPE0 cs3=kW49GcKbnwKByByi3

+jeNzfgWa80000 cs4=ALERT cs5=2015 Which type of Application Firewall security check can the engineer configure to block this type of attack?

* Buffer Overflow
* Start URL
* Cross-site Scripting
* Cookie Consistency

QUESTION 24

Which report can a Citrix Engineer review to ensure that the Citrix ADC meets all PCI-DSS requirements.

* Generate Application Firewall Configuration
* PCI-DSS Standards
* Application Firewall Violations Summary
* Generate PCI-DSS
https://docs.citrix.com/en-us/citrix-adc/current-release/application-firewall/stats-and-reports.html

QUESTION 25

Which Citrix Application Delivery Management (ADM) Analytics page allows a Citrix Engineer to monitor web application traffic?

* Web Insight
* WAN Insight
* HDX Insight

* Gateway Insight

https://docs.citrix.com/en-us/citrix-application-delivery-management-service/analytics/hdx- insight.html

QUESTION 26

Scenario: A Citrix Engineer needs to configure an external SNMP server in a High Availability setup. The engineer configured the load-balancing virtual server to access the NetScaler Management and Analytics System (NMAS) HA pair.

Which IP address will be configured on the external SNMP Manager to add the NMAS devices?
* IP Address of the LB VIP
* IP Address of the Primary node
* IP Address of the active mode
* IP Address of both the NMAS nodes

QUESTION 27

Scenario: A Citrix Engineer has a pair of Citrix ADC VPX appliances configured as a High- Availability (HA) pair and hosted on a Citrix Hypervisor. The engineer wants to use Citrix Application Delivery Management (ADM) to monitor and manage the 35 web applications on the appliances. The engineer has imported Citrix ADM virtual appliance to Citrix Hypervisor. The engineer has also configured the management IP address settings and has added the 35 instances. However, some of the instances are NOT reporting any data.

Which two areas can the engineer check to determine the cause of the issue? (Choose two.)
* A Premium platform license must be configured on each instance.
* AppFlow must be enabled on each instance.
* The Citrix ADM license must be installed.
* An SSL certificate must be installed on the Citrix ADM appliance.

QUESTION 28

How can a Citrix Engineer configure a specific LDAP attribute in the nFactor implementation?
* Specify the attribute in the LDAP server attributes field.
* Change the order of the policies.
* Add the attribute on the nFactor traffic policy.
* Change the login schema and add the new attribute.

QUESTION 29

Scenario: A Citrix Engineer is trying to optimize a website that is load balanced on a NetScaler and is accessed by mobile users. The web application is complex and made up of hundreds of embedded images, scripts, and other objects per page. This limitation is creating a significant bottleneck, resulting in excessive load times.

Which NetScaler feature can the engineer use to optimize the web application?
* Domain Sharding
* SPDY (Speedy)
* Multipath TCP
* Minification
Explanation/Reference:

The leading capability in this category is domain sharding. By default, browsers restrict the number of parallel connections that can

be open to any one domain. Typically, fewer than ten are allowed. For complex web applications with hundreds of embedded images, scripts and other objects per page, this limitation can create a significant bottleneck resulting in excessive load times. With domain sharding, NetScalerMobileStream modifies administrator-selected URLs by breaking them into sub-domains to allow client web browsers to open multiple groups of parallel connections. As a result, object-heavy pages are downloaded and can be rendered up to 10 times faster. Also included in this category is cache extension, a capability that leverages advanced browser settings and NetScalerAppCache functionality to further improve performance by maximizing the practice of locally caching static content.

QUESTION 30

A Citrix Engineer needs to configure an Application Firewall policy. According to company policies, the engineer needs to ensure that all the requests made to the website are originating from North America.

Which policy expressions will help the engineer accomplish the requirement?
* CLIENT.IP.SRC.MATCHES_LOCATION ("North America.US.*.*.*.*")
* CLIENT.IP.SRC.MATCHES_LOCATION ("North America.US.*.*.*.*"). NOT
* CLIENT.IP.DST.MATCHES ("North America.US.*.*.*.*")
* CLIENT.IP.SRC.MATCHES ("North America.US.*.*.*.*")

QUESTION 31

Scenario: A Citrix Engineer has configured LDAP group extraction on the NetScaler Management and Analytics System (NMAS) for the administration. The engineer observes that extraction is NOT working for one of the five configured groups.

What could be the cause of the issue?
* The admin bind user has read-only permissions on the LDAP server.
* The NMAS group does NOT match the one on the external LDAP servers.
* The LDAP bind DN is incorrectly configured in the LDAP profile.
* The user group extraction is NOT supported with plaintext LDAP.

QUESTION 32

Scenario: A Citrix Engineer manages Citrix Application Delivery Management (ADM) for a large holding company. Each division maintains its own ADC appliances. The engineer wants to make Citrix ADM features and benefits available to each group independently.

What can the engineer create for each division to achieve this?
* A site
* A role
* A tenant
* A dashboard
* A group
A tenant that involves multi-tenancy solution provisioned by ADM

QUESTION 33

How can a Citrix Engineer monitor the Citrix ADC appliances to check that all SSL certificates have a key strength of at least 2048 bits from the SSL Dashboard Settings?
* Delete 512, 1024, and 4096 on the Enterprise Policy tab.
* Delete 512 and 1024 on the Enterprise Policy tab.
* Select 2048 and 4096 on the Enterprise Policy tab.

* Select 2048 on the Enterprise Policy tab.
https://docs.citrix.com/en-us/citrix-adc/current-release/ssl/faq-ssl1.html

QUESTION 34

Which setting should be enabled to convert the content-length form submission requests to chunked requests, when HTML SQL
Injection protection is enabled?
* Optimize Partial Requests
* Streaming
* Enable form tagging
* Percentage Recursive Decoding

QUESTION 35

A Citrix Engineer needs to implement Application Firewall to prevent the following tampering and vulnerabilities:

– If web server does NOT send a field to the user, the check should NOT allow the user to add that field and return data in
the field.

– If a field is a read-only or hidden field, the check verifies that data has NOT changed.

– If a field is a list box or radio button field, the check verifies that data in the response corresponds to one of the values in
that field.

Which security check can the engineer enable to meet this requirement?
* Field Formats
* Form Field Consistency
* HTML Cross-Site Scripting
* CSRF Form Tagging

QUESTION 36

A Citrix Engineer reviews the App Dashboard and notices that three of the monitored applications have an App Score of less than
50.

The engineer can interpret the App Score as a metric of application _____. (Choose the correct option to complete the
sentence.)
* security, with a lower score indicating better security
* performance and availability, with a higher score indicating better health
* performance and availability, with a lower score indicating better health
* security, with a higher score indicating better security

QUESTION 37

A Citrix Engineer has defined an HTTP Callout, hc_authorized_location, to return the value

“Authorized” if client’s IP address is on a list of authorized external locations.

Which advanced expression should the engineer use in a policy for testing this condition?
* SYS.HTTP_CALLOUT(hc_authorized_location).IS_TRUE

* SYS.HTTP_CALLOUT(hc_authorized_location).EQ(“Authorized”)
* SYS.HTTP_CALLOUT(hc_authorized_location).IS_VALID
* SYS.HTTP_CALLOUT(hc_authorized_location).EQUALS_ANY(“Authorized”)

Citrix ADC Advanced Concepts - Security, Management and Optimization Certification Path

The test incorporates just a single 1Y0-341 accreditation test. Groundwork for any certificate could be testing if the applicant has not done the appropriate arranging and haven't utilized important examination material source.

On the web competitor would discover bunches of digital book or material to concentrate yet the issue which one they ought to allude to and how to recognize which one is authentic. To defeat this difficult stage. Affirmation questions accompanied their investigation plan covering course substance explicit to Citrix 1Y0-341: Deploy and Manage Citrix ADC 13 with Traffic Management test as **CITRIX 1Y0-341 practice exams** and **CITRIX 1Y0-341 test exam dumps**.

Sample Questions of 1Y0-341 Dumps With 100% Exam Passing Guarantee:
