ExamsLabs DEA-41T1 Exam Practice Test Questions (Updated 120 Questions)

How to book the Dell DEA-41T1: Associate - PowerEdge Exam

These are the registration processes for the Dell DEA-41T1 examination:

Step 1: Log in Pearson VUE onto your account- Step 2: Select Procured Examinations and input Dell DEA-41T1 Exam number.-
Step 3: Follow the registration instructions. **NEW QUESTION 28**

Which RAID level requires a minimum of four hard drives?

* RAID 0
* RAID 1
* RAID 5
* RAID 6

Explanation/Reference: https://www.enterprisestorageforum.com/sans/features/article.php/3855631/RAID-Storage-Levels-
Explained.htm

NEW QUESTION 29

What is the objective of server configuration management in an enterprise environment?

* Reduce cost of servers regardless of workload types utilization types, or performance requirements.
* Minimize cost of servers and to extend the lifetime of servers being used.
* Maximize performance per watt at all utilization levels and workload types while still meeting performance requirements.
* Maximize server performance, regardless of workload, utilization, or performance requirements.

NEW QUESTION 30

A RAID 5 configuration with 20 hard drives loses one hard drive. How many additional hard drive failures can this configuration tolerate before experiencing data loss?

* 0
* 1
* 2
* 3

Explanation/Reference:

Reference: https://www.prepressure.com/library/technology/raid

NEW QUESTION 31

Which RAID level requires a minimum of four hard drives?

* RAID 0
* RAID 1
* RAID 5
* RAID 6

Explanation/Reference:

Reference: https://www.enterprisestorageforum.com/sans/features/article.php/3855631/RAID-Storage- Levels-Explained.htm

NEW QUESTION 32

Which dual-level RAID configuration is combine to configure RAID 10 on a single array?

* RAID a and RAID 1, mirroredand parity
* RAID 0 and RAID 1. mirrored and strip
* RAID 1 and RAAID and strip
* RAID 0 and RAID1, strip and mirrored

NEW QUESTION 33

Which open source operating system is designed to handle demanding business such as network and system administration, database management, and web services?

* Linux
* AIX
* Windows
* ESXi

NEW QUESTION 34

A server administrator needs to monitor a Dell EMC PowerEdge server without installing any additional software. Which management tool is the most appropriate to use?

* OME
* SAE
* iDRAC
* OMSA

NEW QUESTION 35

An administrator wants to enable Lifecycle Controller log replication into the operating system.

Which tool can accomplish this?
* SAE
* OME
* PERC CLI
* iSM
Explanation

Explanation/Reference: https://www.dell.com/support/manuals/en-us/idrac-service-module-v3.4/ism_3.4_users%20guide/
lifecycle-controller-log-replication-into-operating-system?guid=guid-c4959a8c-264b-4564-8605- eead63b4f891&lang=en-us

NEW QUESTION 36

Which one-to-many Dell EMC solution provides a simple interface for system administrators to maximize the uptime and health of
the Dell EMC systems?
* Update Packages
* Repository Manager
* DataCenter Capacity Planner
* OpenManage Essentials
Explanation/Reference: https://topics-cdn.dell.com/pdf/idrac9-lifecycle-controller-v3212121_reference-guide9_en-us.pdf (p.11)

NEW QUESTION 37

What types of data transfer are used by Dell EMC servers to connect mass storage devices?
* USB, Ethernet, SSD, and CSI
* SAS, USB, Ethernet, and SSID
* SSID, CSI, USB, and SAS
* Ethernet, SSID, CSI, and SAS

NEW QUESTION 38

Which error control technique is used by ECC memory?
* Repetition codes
* Hamming code
* Checksums
* Cryptographic hash functions
Explanation/Reference: https://en.wikipedia.org/wiki/ECC_memory

NEW QUESTION 39

A system administrator is installing Hyper-V on a Windows Server 2016. They receive an error message.

How can they solve the problem?

* Ensure minimum memory of 2 GB
* Verify that the virtualization feature is enabled
* Check the installed processor is x86
* Confirm essentials license is installed

NEW QUESTION 40

A system administrator is configuring the file transfer role of a server. Important data needs to be accessed by end users.

Which file transfer service provides secure transfer of the data?

* SNMP
* FTP
* SFTP
* TFTP

NEW QUESTION 41

What distinguishes server CPUs from client CPUs?

* Server CPU have no overclocking features; client CPUs do have them
* Serer CPUs use identicalsocket types, client CPUs usemultiple sockets types
* Server CPUs frequently have fewer croc and more processing power than client CPUs
* Servers tend to have fewer CPUs installed than clients

NEW QUESTION 42

What is an accurate statement regarding 40 Gbps Ethernet ports?

* Can be used as a single 40 Gb connector or used as four 10 Gb connections
* Cannot be configured into a stack connection
* Must be segmented into four independent 10 Gb connections
* May only be used as a non-negotiable, single 40 Gb link

NEW QUESTION 43

What is the object of server configuration management in an environment?

* Reduce cost servers regardless of workload types, or performance requirements.
* Minimize cost of server and to extend the lifetime of servers being used
* Maximum performance perwatt at all utilization levels and workload types while performance requirements.
* Maximize server performance, regardless of workload, utilization or performance requirements

NEW QUESTION 44

What is the maximum numberof iDRAC Virtual Console that can be run simultaneously?

* 4
* 5
* 6
* 7

NEW QUESTION 45

What is an statement in reference to software RAID?
* Software RAID does not have any data integrity issues
* Software RAID requires a hardware license
* Software RAID is an additional cost
* Software RAID uses CPU resources

NEW QUESTION 46

What benefit is offered by modular servers over rack servers?
* Lower power requirements result in lower datacenter operating costs.
* Higher density is achieved by reducing the amount of consumed rack space
* Hot replacement of any server in the enclosure is possible
* All hardware technology is integrated into a single circuit board
Explanation/Reference: https://www.racksolutions.com/news/data-center-optimization/blade-server-vs-rack-server/

NEW QUESTION 47

A RAID 5 configuration with 20 hard drives loses one hard drive. How many additional hard drive failures can this configuration tolerate before experiencing data loss?
* 0
* 1
* 2
* 3
Explanation/Reference: https://www.prepressure.com/library/technology/raid

NEW QUESTION 48

Which solution is recommended for installing a hypervisor in a Dell EMC PowerEdge rack server or in a hyper- converged infrastructure (HCI) host?
* FC HBA
* BOSS
* CPU
* NVDIMM

NEW QUESTION 49

A customer needs to access webmail on a laptop. Using a browser, they type in the URL and the page display correctly. What is the correct of stops used to load the webpage?

Browser connects to a Web server	Step 1
Server sends back the webpage	Step 2
Client requests access to a webpage	Step 3
Client browser displays webpage	Step 4
Web server processes the request	Step 5

Browser connects to a Web server	Client requests access to a webpage
Server sends back the webpage	Browser connects to a Web server
Client requests access to a webpage	Web server processes the request
Client browser displays webpage	Server sends back the webpage
Web server processes the request	Client browser displays webpage

Client requests access to a webpage

Browser connects to a Web server

Web server processes the request

Server sends back the webpage

Client browser displays webpage
