Career opportunities

The Cloud Essentials+ certification is recommended by many organizations, including Pareto Law and Konica Minolta, which means that you will be able to find your place in the industry. If you earn this certificate, you can become a Business Process Owner or a Business Analyst as well as become a part of the Technical Support Staff, Managed Service Provider Personnel, or Sales and Marketing Staff. According to PayScale, you can get an average annual salary of about $73,000.

The benefit in Obtaining the CompTIA Cloud Essentials+ (CLO-002)

This exam will help you:

- Once you earn your Cloud Essentials certification, you have it for life. You don't need to recertify. You may ultimately want to add to that certification, but the certification will be on your resume whether you make on it or not.- For a limited experienced IT professional, it may be helpful to start with the Cloud Essentials certification, which will work as a stepping

stone to Cloud+ and beyond. There are no requirements for the Cloud Essentials certification.- Cloud+ is an entry-level cloud certification, so there's value for the non-technical professional to qualify on these topics. It's also a professional certification that will make a non-technical resume a bit more multi-functional.- Professionals who hold Cloud+ certification from CompTIA also have access to continuing education opportunities that will help them stay current. CompTIA has a wide variety of recertification options for IT professionals. But it's important to find the perfect educational path to help you achieve your own long-term and short-term career goals.- Cloud Essentials was intended for business people who require to understand the legal and business associations of cloud technology without tremendous hard work. It enables anyone in an organization to study the cloud so that they can make versed decisions. These people might incorporate those in sales, marketing, management, and particularly IT.

Having a CompTIA Certified IT Professional certification will certainly give you an advantage when hiring managers to look at your resume. If you have certification is a significant advantage in jobs competition as compared to those who do not have one. If you have the certificate then you can move up the corporate ladder or into a better, higher-paying job in your company. You can also join a unique group of certified and skilled professionals. There are many companies that support their employees in earning these certifications that may even lead to promotions and raises as well. Many companies have requirements by their professional recertify every two to three years.

Q73. Which of the following cloud migration methods would take full advantage of the cloud computing model?
* Rip and replace
* Lift and shift
* Phased
* Hybrid

Q74. A company is migrating a legacy application to the cloud. Two C-level executives are currently engaged in the

initial stages of the migration, and they are planning a rip-and-replace approach.

Before initiating the project, the FIRST step should be to identify:
* the required network performance.
* the key stakeholders.
* the desired CSP.
* the required cloud services.
* the required amount of storage.

Q75. An organization’s servers are experiencing performance degradation from oversubscription of memory in the

virtual environment and exhausted physical RAM.

Which of the following cloud computing characteristics would BEST address the issue?
* Availability
* Elasticity
* Pay-as-you-go
* Self-service

Q76. A cloud developer chooses to use private key encryption for all traffic in a new application. Which of the following security concerns does this BEST describe?
* Integrity
* Confidentiality
* Availability
* Authorization

Q77. Which of the following is used to build and manage interconnections between cloud resources within the same cloud environment?

* Firewall
* Software-defined network
* Virtual private network
* Direct Connect

Q78. A company’s finance team is reporting increased cloud costs against the allocated cloud budget. Which of the following is the BEST approach to match some of the cloud operating costs with the appropriate departments?

* Right-sizing
* Scaling
* Chargeback
* Showback

Q79. A web application was deployed, and files are available globally to improve user experience. Which of the

following technologies is being used?

* SAN
* CDN
* VDI
* API

Q80. A company is discontinuing its use of a cloud provider. Which of the following should the provider do to ensure there is no sensitive data stored in the company’s cloud?

* Replicate the data.
* Encrypt the data.
* Lock in the data.
* Sanitize the data.

Q81. Which of the following are the main advantages of using ML/AI for data analytics in the cloud as opposed to on premises? (Choose two.)

* Cloud providers offer enhanced technical support.
* Elasticity allows access to a large pool of compute resources.
* The shared responsibility model offers greater security.
* AI enables DevOps to build applications easier and faster.
* A pay-as-you-go approach allows the company to save money.
* ML enables DevOps to build applications easier and faster.

Q82. A business analyst is comparing utilization for a company’s cloud servers on a financial expenditures report. The usage report is as follows:

Server name	Used space	Allocated space
Application server	18GB	100GB
Mail server	55GB	80GB
File server	70GB	90GB
Web server	105GB	130GB

Which of the following instances represents the highest utilization?
* Mail server
* Application server
* File server
* Web server

Q83. A business analysis team is reviewing a report to try to determine the costs for a cloud application. The report does not allow separating costs by application.

Which of the following should the team use to BEST report on the costs of the specific cloud application?
* Right-sizing
* Content management
* Optimization
* Resource tagging

Q84. An organization determines it cannot go forward with a cloud migration due to the risks involved. Which of the following types of risk response does this describe?
* Acceptance
* Transference
* Avoidance
* Mitigation

Q85. A company wants to ensure its existing functionalities are not compromised by the addition of a new

functionality.

Which of the following is the BEST testing technique?
* Regression
* Stress
* Load
* Quality

Q86. Which of the following are the main advantages of using ML/AI for data analytics in the cloud as opposed to on

premises? (Choose two.)
* Cloud providers offer enhanced technical support.
* Elasticity allows access to a large pool of compute resources.
* The shared responsibility model offers greater security.
* AI enables DevOps to build applications easier and faster.
* A pay-as-you-go approach allows the company to save money.
* ML enables DevOps to build applications easier and faster.

Q87. Which of the following services would restrict connectivity to cloud resources?
* Security lists
* Firewall
* VPN
* Intrusion detection system

Q88. A small online retailer is looking for a solution to handle the high load on its servers during the holiday season.

The retailer is not currently ready to move its IT operations completely to the cloud.

Which of the following will BEST fit these requirements?
* Elasticity
* Scalability
* Bursting
* Self-service

Q89. A report identified that several of a company’s SaaS applications are against corporate policy. Which of the following is the MOST likely reason for this issue?
* Shadow IT
* Sensitive data
* Encryption
* Vendor lock-in

Q90. Which of the following can be used by a client’s finance department to identify the cost of cloud use in a public cloud environment shared by different projects and departments?
* Reserved instances
* Service level agreement
* Resource tagging
* RFI from the CSP

Q91. Which of the following BEST explains why there should be an established communication policy between CSPs and clients?
* To set guidelines for securing network traffic for all communications with endpoints on the corporate local area network
* To ensure all staff know the acceptable guidelines for representing themselves on social media.
* To have protocols in place for notifying staff when a cloud outage occurs.
* To have proper procedures in place for interactions between internal departments and cloud vendors submitting bids for software or service.

Q92. Which of the following is a benefit of microservice applications in a cloud environment?
* Microservices are dependent on external shared databases found on cloud solutions.
* Federation is a mandatory component for an optimized microservice deployment.
* The architecture of microservice applications allows the use of auto-scaling.
* Microservice applications use orchestration solutions to update components in each service.

Q93. Which of the following BEST describes a pay-as-you-go licensing model within a cloud service?
* Subscription agreement
* Perpetual agreement
* Enterprise agreement
* Promotional agreement

Q94. Which of the following would BEST provide access to a Windows VDI?
* RDP
* VPN
* SSH
* HTTPS

Q95. Which of the following allows for the management of network policies from a central portal while maintaining a hardware-agnostic approach?
* Virtual private network

* Software-defined network
* Load balancing
* Direct Connect
