* Power User

Service Administrators have Write access to all dimension members and to all forms.

QUESTION 68

If the Intercompany Property for an Entity is changed from marked to unmarked, which result occurs?

- * The alias of the associated Intercompany member is automatically updated.
- * The associated Intercompany member must be manually removed.
- * The associated Intercompany member is automatically removed.
- * The alias of the associated Intercompany member must be manually changed.

QUESTION 69

Which two

statements are true of the roll forward calculation in the Movement dimension?

- * Values for base-level Movement members are calculated as the difference between Closing Balance and Opening Balance.
- * Translated values for Closing Balance are adjusted to the ending rate for the period.
- * Values for Opening Balance are retrieved from the prior period Closing Balance.
- * Data for opening balances must be loaded to the Opening Balance member prior to consolidation.

If Entity currency and Parent currency Closing Balance data does not exist in the prior period, then the Ending Rate for the prior period is used.

Opening balance is calculated from the prior period's Closing Balance.
