Excellent 5V0-32.21 Updated 2023 Dumps With 100% Exam Passing Guarantee [Q26-Q49

Excellent 5V0-32.21 Updated 2023 Dumps With 100% Exam Passing Guarantee Best way to practice test for VMware 5V0-32.21 NO.26 Which plugin, in addition to the VMware vRealize Orchestrator Plugin for Cloud Director, can be used to enable the system administrator to automate tasks in VMware Cloud Director through vRealize Orchestrator?

* SOAP Plugin
* VAPI Plugin
* REST Plugin
* SNMP Plugin

https://blogs.vmware.com/cloudprovider/2018/07/extend-and-automate-vcloud-director-using-vrealize-orchestrator.html

NO.27 A system administrator is configuring new resources in a new VMware Cloud Director instance.

Which new resources can be created in VMware Cloud Director?

* Storage Policies, Content Library, vSphere Port Group, and VM Template
* Provider Virtual Data Center, vSphere Cluster, Organization, and vApp Template.
* Provider Virtual Data Center, Organization Virtual Data Center, External Network, and Network Pool
* Site Association, SAML Identity Provider, vSphere Lookup Service, and Custom Roles.

NO.28 Which statement describes the function of a VMware Cloud Director Availability replication policy?

* It defines and controls the replication attributes and is controlled by the tenant.
* It defines and controls the replication attributes and is controlled by the on-premises vSphere environment.
* It defines and controls the type of compatible guest operating systems.
* It defines and controls the replication attributes and is controlled by the service provider.

NO.29 An administrator is configuring a load balancer for multiple VMware Cloud Director appliances for the console proxy.

Which port number should the administrator use?

* 443
* 902
* 8443
* 5480

NO.30 An individual is logged into the VMware Cloud Director tenant portal as organization administrator and would like to create a direct organization virtual data center network. The individual, however, receives a message that insufficient rights are held.

Which role is needed to complete this task?

* vApp author
* System administrator
* Catalog author
* Tenant administrator

NO.31 Which three steps are required to enable east/west firewall in VMware Cloud Director Tenant Portal? (Choose three.)

* Click on Data Center Group and create a new Data Center Group
* Go to Edge Gateways and enable firewall on one of the Edge Gateways
* Go to Networking and enable Distributed Firewall for one of the Network inside the Network section
* Activate Distributed Firewall inside the Data Center Group
* Login to Customer Organization and go to Networking Section of Tenant Portal
* Enable the firewall in NSX-T

NO.32 Which statement is accurate for virtual machines that need to be customized by VMware Cloud Director?

* It must use the VMware Tools for VMware Cloud Director.
* It should use only the tools provided by Windows operating system.
* It must be converted into VMware Cloud Director disk format first.
* It should have the latest VMware Tools installed.
https://docs.vmware.com/en/VMware-Cloud-Director/10.4/VMware-Cloud-Director-Tenant-Portal-Guide/GUID-2D21BDFA-FAD
B-445A-8CB5-3628255773AC.html

NO.33 An administrator is configuring and managing multisite deployments.

Which Association Member Status is an invalid status?

* Inactive
* Asymmetric
* Active
* Unreachable
https://docs.vmware.com/en/VMware-Cloud-Director/10.0/com.vmware.vcloud.spportal.doc/GUID-6BF0EE6A-D5F0-4918-BD74-
40892D2880B0.html ACTIVE – The association has been established by both parties, and communication with remote party
was successful.

ASYMMETRIC – The association has been established at the local site, but the remote site has not yet reciprocated.
UNREACHABLE – An association has been created by both parties, but the remote site is not currently reachable on the
network.

NO.34 Which solution from the VMware Cloud Provider Platform provides a true multi-tenant, self-service platform for
infrastructure services?
* VMware Cloud on AWS
* VMware vRealize Automation
* VMware Cloud Foundation
* VMware Cloud Director

NO.35 What is the function of vCloud Usage Meter Billing Categories?
* To indicate which licensing belongs to individual tenants
* To indicate which VCPP bundle has been detected
* To indicate which license keys are billable
* To indicate if consumption is based on vRAM or per OSI/VM

NO.36 A system administrator is cleaning up old custom roles to align with management via rights bundles and sees a role that is
not a default role in VMware Cloud Director.

Which role should be deleted by the system administrator?
* vApp User
* Catalog Author
* Organization Administrator
* vApp Manager
Organization Administrator exist, vApp Manager doesn’t exist

NO.37 Which type of storage for transfer service does the VMware Cloud Director Appliance Support?
* NFS
* OCFS
* VMFS
* iSCSI

NO.38 An administrator is configuring a load balancer for multiple VMware Cloud Director appliances for the console proxy.

Which port number should the administrator use?
* 443
* 902
* 8443
* 5480
The VMware Cloud Director appliance uses its eth0 IP address with custom port 8443 for the console proxy service.

NO.39 Which plugin, in addition to the VMware vRealize Orchestrator Plugin for Cloud Director, can be used to enable the system
administrator to automate tasks in VMware Cloud Director through vRealize Orchestrator?
* SOAP Plugin
* VAPI Plugin
* REST Plugin
* SNMP Plugin

NO.40 What is the final configuration step before a tenant can log into a dedicated vCenter Server using Central Point of

Management?

* The tenant user needs to configure the browser with the generated proxy settings shown in the tenant portal.
* The system administrator needs to configure the browser with the generated proxy settings shown in the tenant portal.
* The system administrator needs to configure additional permissions in vCenter Server for the tenant.
* The tenant user has to connect to a VPN connection in the network where the vCenter Server is connected.

NO.41 An administrator has vCenter Server clusters that will be providing resources to VMware Cloud Director.

Which setting is a requirement?

* Fully Automated DRS
* vCenter HA
* Storage DRS
* vSphere HA

NO.42 Which statement is true regarding VMware Cloud Director App Launchpad?

* It only provides a pre-packaged public catalog that allows Service Providers the ability to pre-configure sizing templates for application deployment, simplifying the tenant experience.
* It only provides pre-packaged, publicly available applications from the VMware Marketplace that must be configured every time they are deployed.
* It provides a pre-packaged public and custom application catalog that allows Service Providers the ability to pre-configure sizing templates for application deployment, simplifying the tenant experience.
* It provides both pre-packaged, publicly available applications from the VMware Marketplace as well as custom-build applications, but the properties must be configured by the tenant every time they want to deploy one.
https://docs.vmware.com/en/VMware-Cloud-Director-App-Launchpad/2.1/install-and-configure-app-launchpad/GUID-B5F387A1-8E0A-4969-B7B8-2B26CCF7981B.html

NO.43 Which allocation model can only be non-elastic?

* Reservation Pool
* Allocation Pool
* Pay-As-You-Go
* Flex

NO.44 A system administrator has been tasked with creating a new network in preparation for onboarding a tenant with the following requirements:

* Provides a fully routed networking topology

* Advertises routes via BGP (Border Gateway Protocol)

* Prevents additional edge gateways from connecting to the network

* Allow virtual machines to connect to outside networks

Which network type will satisfy all of these requirements?

* Imported Network
* Isolated Network
* Direct Network
* Dedicated External Network

NO.45 What happens to a VM within an oVDC which uses the Pay-As-You-Go allocation model if there are insufficient resources?

* It gets corrupted.
* It powers on as the resources are assigned at the organization VDC level.
* It fails to power on.
* It takes advantage of the resources of idle virtual machines.

NO.46 A tenant has requested to extend their Organization VDC network through a Layer 2 VPN. Which interface type is needed on the NSX for vSphere Edge Gateway to support this configuration?
* Routed
* Subinterface
* Internal
* Distributed

NO.47 Which three types of Kubernetes clusters are available for consumption with Container Service Extension (CSE)? (Choose three.)
* Native Clusters
* Rancher Clusters
* Tanzu Kubernetes Grid Integrated (Enterprise PKS) Clusters
* Red Hat OpenShift Clusters
* Amazon EKS Clusters
* Tanzu Kubernetes Grid Clusters

NO.48 The runtime lease of a virtual machine is about to expire. The administrator would like to extend the lease time.

Which action should be taken to complete this task?
* Renew the lease from the vApp action menu.
* Extend the storage lease, and runtime will automatically be extended.
* Use the /api/renewlease endpoint to define a new lease time.
* Renew the VM lease only after renewing the vApp lease.

NO.49 Having just deployed VMware Cloud Director, a service provider needs to create Provider Virtual Data Centers so their tenants can consume cloud resources through their Organization Virtual Data Centers.

Which two options can be used to create Provider VDCs? (Choose two.)
* Service Provider Admin Portal
* vSphere Client
* Tenant Admin Portal
* Operations Manager Portal
* vCloud API
