

	Answer Area	Security solution	Use Case
Access when			Dealers cannot modify orders in the Fulfillment stage.
Access Control Policy			Dealers cannot run reports.
Access Deny			Customers can only view their own credit report.
Access of Role to Object			Dealers can modify evaluations.

	Answer Area	Security solution	Use Case
Access when		Access when	Dealers cannot modify orders in the Fulfillment stage.
Access Control Policy		Access Deny	Dealers cannot run reports.
Access Deny		Access Control Policy	Customers can only view their own credit report.
Access of Role to Object		Access of Role to Object	Dealers can modify evaluations.

NEW QUESTION 59

Which two rule types can you mark as a relevant record? (Choose Two)

- * Property
- * Report
- * Skin
- * Section

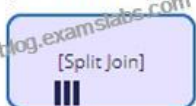

NEW QUESTION 60

During an Account review case, an accountant wants to evaluate the client's retirement plan. A Retirement planning case is created that runs in parallel with the Account review case. Neither case waits for nor reports to the other.

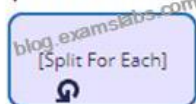

To configure this workflow, which type of parallel processing shape do you use?

A)

Split Join shape

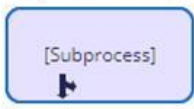

Split For Each shape

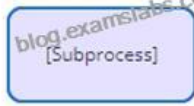

C)

Subprocess shape with the Spinoff flow option enabled

D)

Subprocess shape

- * Option A
- * Option B
- * Option C
- * Option D

NEW QUESTION 61

In your purchasing application, you use a decision table with vendor discount codes. You want to delegate the decision table.

In which ruleset do you save the decision table to allow delegation?

- * Organization
- * Integration
- * Production
- * Application

NEW QUESTION 62

Which statement is true about connectors?

- * Connectors use a listener that runs in the background.
- * Connectors establish a link to a service on another system.
- * Connectors require a REST service to function.
- * Connectors can be referenced from data transforms.

NEW QUESTION 63

In the Answer Area, drag each mobile application solution on the left to the correct scenario.

	Answer Area	Mobile Application Solution	Scenario
Signed application			Globalbank wants to build a mobile app of its Pega Platform application to embed in its mobile app.
SDK application			
Unsigned application			Metrobank wants to build a mobile app for distribution on Android and iOS app stores.
			Localbank wants to build a mobile app for a Pega Platform application, but developer certificates cannot be distributed to app developers.

	Answer Area	Mobile Application Solution	Scenario
Signed application		SDK application	Globalbank wants to build a mobile app of its Pega Platform application to embed in its mobile app.
SDK application		Signed application	Metrobank wants to build a mobile app for distribution on Android and iOS app stores.
Unsigned application		Unsigned application	Localbank wants to build a mobile app for a Pega Platform application, but developer certificates cannot be distributed to app developers.

NEW QUESTION 64

A class group is used to _____.

- * identify a layer of the Enterprise Class Structure
- * combine related properties by usage
- * assign work to a specific group of users
- * associate child classes with a single database table

NEW QUESTION 65

The ruleset list for an application consists of the following rulesets, ordered from highest to lowest:

- * SelfService: 01-01
- * TGB-HR:01-01
- * TGB:01-01

A rule with an Apply to: class of TGB-HR-SelfService-Work-TimeOff references a rule named ConfirmationRequest. The four instances of Confirmation Request in the rules cache are shown in the following table.

Apply to:

Ruleset: Version

Availability

TGB-HR-SelfService-Work

SelfService: 01-01-01

Available

Available

Withdrawn

TGB-HR-SelfService-Work-TimeOff TGB-HR-SelfService-Work-TimeOff

SelfService:01-01-01

SelfService: 01-01-02

TGB

TGB:01-01-02

Available

Which is chosen during rule resolution?

- * TGB .Confirmation Request (TGB:01-01-02)
- * TGB-HR-SelfService-Work-TimeOff .Confirmation Request (SelfService: 01-01-01)
- * TGB-HR-SelfService-Work .Confirmation Request (SelfService: 01-01-01)
- * TGB-HR-SelfService-Work-TimeOff .Confirmation Request (SelfService: 01-01-02)

NEW QUESTION 66

In the Answer Area, drag each mobile application solution on the left to the correct scenario.

Mobile Application Solution

Scenario

SDK Applicatio	Globobank wants to build a mobile app of its Pega Platform application to embed in its mobile app.
Signed Application	Metrobank wants to build a mobile app for distribution on Android and iOS app stores.
Unsigned application	Localbank wants to build a mobile app for a Pega Platform application, but developer certificates cannot be distributed to app developers.

Mobile Application Solution

Scenario

SDK Applicatio	SDK Applicatio
Signed Application	Signed Application
Unsigned application	Unsigned application

NEW QUESTION 67

An assignment service-level agreement (SLA) is configured with the following details?

- * Initial urgency: 20
- * Assignment ready: Timed delay of 1hr
- * Goal: 5hr and increase urgency by 10
- * Deadline: 8hr and increase urgency by 20
- * Passed deadline: 2hr, increase urgency by 20, and limit events to 5

Assuming no other urgency adjustment, what is assignment urgency 16hr after the case reaches the assignment?
100

NEW QUESTION 68

Which requirement is supported by attribute-based access control (ABAC)?

- * Managers can reschedule but not delete appointments.
- * Personal identifying information in the Work-Baking- class is restricted.
- * Agents who are assigned the Top Secret clearance level can delete reports.
- * Customers have view access to all attachments on a case.

NEW QUESTION 69

A budgeting application uses a job scheduler to automatically email customers once a week with a breakdown of their weekly expenses. Due to the international usage of the application, stakeholders require peak performance at all hours.

Which solution addresses this performance concern?

- * Dedicate and classify a node for the job scheduler.
- * Ensure customers use a common access group.
- * Configure the job scheduler to run at off-hours.

- * Limit the number of operators who access the application.

NEW QUESTION 70

A global application with infrastructure nodes located throughout the world requires certain operations to start executing at midnight GMT.

Select two possible designs for this use case. (Choose Two)

- * Use the Queue-For-Processing method in an activity and design a standard queue processor.
- * Use the Queue-For-Processing method in an activity and design a dedicated queue processor.
- * Use the Run in background step in the case life cycle and design a standard queue processor.
- * Use the Run in background step in the case life cycle and design a dedicated queue processor.

NEW QUESTION 71

In which two scenarios is it a Pega best practice to use Pega Web Mashup over a Pega API integration? (Choose Two)

- * Minimal resources are assigned to update Pega Platform for each new release.
- * The application is built on Pega Platform version 8.2 using UI Kit.
- * Users are expected to create cases, open assignments, and manage data privacy.
- * Developers have access to only App Studio when configuring the integration.

NEW QUESTION 72

A city resident can report potholes to the Department of Transportation by logging in to a mobile Pega Platform application that utilizes the Pega API.

Which two Pega API interactions do you use to facilitate this? (Choose two.)

- * Submit the report using POST/cases
- * Access the related case type to report using GET/casetypes
- * Update the report using GET/cases
- * Log into the application using PUT/authenticate

NEW QUESTION 73

On which type of rule can you configure edit validate rules?

- * Properties
- * Flow actions
- * Activities
- * Case types

NEW QUESTION 74

When designing reports with multiple data sources, in which two ways is an association rule different from a class join? (Choose two.)

- * You can join multiple classes with class joins, while you cannot join multiple classes with associations.
- * Anyone with the appropriate permissions can use associations when creating reports in the User portal.
- * Class joins are unique to each report. Associations are reusable in any report.
- * A class join is required to add a filter condition to your report.

NEW QUESTION 75

You should consider using a field value when the list of allowed values is

- * mostly static
- * three or fewer items
- * specific to one case type
- * shared across all case types
