[2023] C_TAW12_750.pdf - Questions Answers PDF Sample Questions Reliable
SAP C_TAW12_750 Dumps PDF Are going to be The Best Score

How much is the cost of the SAP C_TAW12_750 Exam
The cost of the SAP C_TAW12_750 Exam is USD 599.

SAP C-TAW12-750 exam is designed to test the skills and knowledge of developers who work with the ABAP programming language in the SAP NetWeaver 7.50 environment. SAP Certified Development Associate - ABAP with SAP NetWeaver 7.50 certification is intended for professionals who work with ABAP in areas such as custom development, enhancement, and support of SAP applications. C_TAW12_750 exam covers a wide range of topics, including ABAP programming basics, data dictionary objects, ABAP development tools, and debugging techniques. Passing the SAP C-TAW12-750 exam demonstrates a developer's ability to develop high-quality ABAP code that meets SAP's standards and best practices.

NEW QUESTION 47

Which of the following elements can a string template contain? Note: There are 2 correct answers to this question
* Functional module calls
* Function methods calls
* String processing statements
* Literals

NEW QUESTION 48

Each work process is assigned a type of task that can be performed. Which statements related to this are true?

Select all that apply.
* All work processes communicate with the dispatcher.
* All work processes communicate with the database.
* A work process can communicate directly with an external system through ‘-‘ a Remote Function Call
* It is possible to have multiple enqueue work processes on an SAP NetWeaver Application Server.
* It is possible to have multiple spool work processes on an ABAP application ‘-‘ server
* All work processes have the same structure.
* To switch a work process type requires a restart of the SAP NetWeaver AS for *-I ABAR

NEW QUESTION 49

Which of the following are features of the Context in Web Dynpro?

There are 2 correct answers to this question

Response:
* Data is transferred from one Context to another by firing plugs
* Every Web Dynpro controller has one Context
* Data is shared between controllers through Context mapping
* Every Web Dynpro controller has multiple Contexts

NEW QUESTION 50

How can you maintain documentation for input fields on your screen?

Please choose the correct answer.

Response:
* Add documentation to the SCREEN table at PROCESS BEFORE OUTPUT (PBO).
* Add documentation to the SCREEN table at PROCESS AFTER INPUT (PAI).
* Add documentation to the underlying data element.
* Define text tables for the underlying structure.

NEW QUESTION 51

You can create projection views for pooled or cluster tables
* False
* True

NEW QUESTION 52

Which of the following statements regarding search helps are true? Select all that apply.

* You can use a database view for the search help selection method.
* You can use transparent tables for the search help selection method.
* You can use a maintenance view for the search help selection method.
* Help views can also be used for the selection method for search help.

NEW QUESTION 53

There are _____ versions of the ABAP Editor.

Please choose the correct answer.

Response:
* 3
* 4
* 2
* 1

NEW QUESTION 54

Which you should specify in a non-Unicode system when opening a file in TEXT MODE? Select all that apply.
* The ENCODING addition
* The byte order
* The code page

NEW QUESTION 55

At most, how many buttons can the application toolbar have on the screen?

Please choose the correct answer.

Response:
* 20
* 30
* 10
* 35
* None of the above

NEW QUESTION 56

The dispatcher handles all communication between users, work processes, and other (external) systems.
* False
* True

NEW QUESTION 57

Where can you define data types that can be used throughout the system? Note: There are 3 correct answers to this question.
* In a function module
* In a method

* In a global interface
* In the ABAP Dictionary

NEW QUESTION 58

A transport company keeps track of this availability in two tables, table VEHICLES and table TRANSPORT.

To accept a new transport of a certain capacity must be found in table VEHICLES. If a record is found, a record is created in table TRANSPORT. The capacity is then adjusted in table VEHICLES. You have four function modules at your disposal.

UPD_VEHI_A and UPD_VEHI_B update a matching report in table VEHICLES. If an error occurs both issue a message of type X.

If no error occurs only UPD_VEHI_A issues a message of type X.

If no error occurs UPD_VEHI_A issues a message of type I.

UPD_TRAN_A and UPD_TRAN_B create a single record in table TRANSPORT. If an error occurs both issues a message of type X.

If no error occurs only UPD_TRAN_A issues a message of type I.

Which of the following function module calls ensures a single logical unit of work?

Please choose the correct answer.

Response:
* 1.UPD_VEHI_A

2.UPD_TRAN_B
* 1.UPD_VEHI_A

2.UPD_TRAN_A
* 1. UPD_TRAN_A

2. UPD_VEHI_B
* 1. UPD_TRAN_B

2. UPD_VEHI_B

NEW QUESTION 59

Which steps do you have to perform when defining a view using core data services (CDS)? There are 3 correct answers to this question.
* Specify the name of the SQL view in ABAP Dictionary
* Create a data definition in your ABAP package
* Use the DDL statement DEFINE VIEW and SQL like Syntax
* Create a proxy object for the defined view.
* Define the type mapping between ABAP and SAP HANA

NEW QUESTION 60

Identify the types of controller.

There are 5 correct answers to this question.

Response:
* Component controller
* Custom controller
* Consumer controller
* Configuration controller
* View controller
* Window controller

NEW QUESTION 61

Which data types are incomplete ABAP standard data types? Note: There are 3 correct answers to this question.
* I
* D
* C
* N
* P

NEW QUESTION 62

Where can you set the GUI status and the GUI title for a classical screen (dynpro)?

Please choose the correct answer.

Response:
* In a module called from PBO of the screen
* In the attributes of the screen
* In the properties of the related header UI element
* In a module called from PAI of the screen

NEW QUESTION 63

Which of the elementary data types is deep?

Please choose the correct answer.

Response:
* N
* XSTRING
* DECFLOAT34
* X

NEW QUESTION 64

The Internet Communication Manager (ICM)…

Please choose the correct answer.

Response:
* Replaced SAP ITS.
* Allows SAP NetWeaver Application Server to process HTTP requests.
* Allows the ABAP stack and the Java stack to exchange data.
* Can not replaced SAP ITS.

NEW QUESTION 65

You implemented a subclass that inherits the instance constructor from it superclass What can you do with the inherited constructor?

There are 2 correct answers to this question

Note: Answers of this question are not verified by our experts, please study yourself and select the appropriate answers.

Response:
* Create several implementations
* Change the name
* Change the signature
* Redefine the implementation

NEW QUESTION 66

Function modules provide which types of parameters?

There are 4 correct answers to this question.

Response:
* Input
* Output
* Input/output (changing)
* Return values
* Exceptions

NEW QUESTION 67

What are the main points of SAP HANA High Availability Per Datacenter that are available even in the event of a disaster?

There are 2 correct answers to this question
* Shared file systems for only one server
* High availability configuration
* Services-Name and index server on all nodes
* Active clusters for all servers

NEW QUESTION 68

The valid value for a decimal floating point number of type decfloat34 is a number between 1E6145 and

-1E-6143for a negative number, 0, and +1E-6143 to 1E6145.

* True
* False

NEW QUESTION 69

Which of the following is a true statement? Select all that apply.
* Repository objects and cross-client customization objects are assigned to the workbench request.
* All transportable objects have to be assigned to a package.
* Inactive objects can be transported.
* Local repository objects can be transported
* Client-specific customization objects are assigned to the customizing ‘-‘ request

The topics covered in the SAP C_TAW12_750 certification exam are essential for developers who work with SAP NetWeaver 7.50. C_TAW12_750 exam focuses on various areas of ABAP programming, including ABAP development tools, ABAP objects, modularization techniques, database programming, and more. C_TAW12_750 exam is designed to test a developer's practical knowledge of ABAP programming, which is crucial for working on SAP projects.
