New 2023 PEGAPCSSA87V1 Dumps for Pega PCSSA Certified Exam Questions & Answer [Q58-Q77]

New 2023 PEGAPCSSA87V1 Dumps for Pega PCSSA Certified Exam Questions and Answer
Realistic Verified PEGAPCSSA87V1 exam dumps Q&As - PEGAPCSSA87V1 Free Update

The PEGAPCSSA87V1 exam is a challenging exam that requires a lot of preparation and dedication. It is designed to test the knowledge and expertise of the individual in the Pega platform. However, passing PEGAPCSSA87V1 exam can be extremely beneficial for professionals looking to advance in their careers. It not only validates their skills and expertise but also opens up new opportunities for them in the industry.

NEW QUESTION 58

On which type of rule can you configure edit validate rules?

- * Properties
- * Flow actions
- * Activities
- * Case types

NEW QUESTION 59

Which two configurations do you implement when using a Pega Web Mashup? (Choose Two)

- * Leverage the standard authentication service ICAAuthentication and update the authentication activities.
- * Add an access group for the application rules that need to be accessed from the external system.
- * Configure a node-level data page to hold security access information about the external system.
- * Configure the application permissions by specifying a list of trusted domains in the application rule.

NEW QUESTION 60

Which two configuration are required when adding a Split for Each shape to your cases life cycle?

- * Enter the Page List or Page Group property that is the basis of the split.
- * Define when the parent process resumes processing.
- * Enable users to get back to the subprocess after the case moves forward.
- * Enter a rule that stores the audit note that you want to include in the subprocess.

NEW QUESTION 61

You are analyzing application performance and identify a data transform exceeding preferred performance parameters. Which performance tool do you use to help troubleshoot the issue?

- * Performance Profiler
- * Database Trace
- * Performance Analyzer (PAL)
- * Tracer

NEW QUESTION 62

Which two statements are valid regarding Pega Web Mashups? (Choose two.)

- * A mashup display starts by calling either a flow or a harness from a Pega application.
- * Pega Platform limits a mashup to working on existing cases.
- * A mashup can allow access to Dev Studio for full system configuration.
- * A user can view their worklist in an external portal and select items to take action on.

NEW QUESTION 63

You have identified an activity that does not perform well. You need to find out exactly which steps in the activity are causing the poor performance.

Which tool allows you to identify the cause of the performance issue?

- * Database Trace
- * Performance Analyzer (PAL)
- * Performance profiler
- * Tracer

NEW QUESTION 64

A hospital uses a case type to manage the treatment of patients visiting the Emergency Room (ER). Cases are created when the patient checks in at the registration desk, and are resolved when the patient is released from the hospital. Stakeholders identify the following security requirements for the case type.

- * Patients access cases on a read-only basis.
- * Patients can only access their own cases.
- * Doctors and nurses can modify cases throughout the case life cycle.
- * Only doctors are allowed to write prescriptions.

Which configuration allows doctors and nurses to modify cases while complying with all identified security requirements?

- * Create two access roles, one for doctors and one for nurses, and set the modify action for each to 5.
- * Create two access roles, one for doctors and one for nurses, and set the modify action for each to 1.
- * Create a single access role for both doctors and nurses, and set the modify action to 5.
- * Create a single access role for both doctors and nurses, and set the modify action to 1.

NEW QUESTION 65

A music production company's application contains the following classes:

*UPlusMusic-Production-Work-
UPlusMusic-Production-Work-Studio-
UPlusMusic-Production-Work-Brand-
UPlusMusic-Production-Work-Studio-Recording
UPlusMusic-Production-Work-Studio-Editing
UPlusMusic-Production-Work-Brand-Marketing
UPlusMusic-Production-Work-Brand-Distribution*

A requirement states that users assigned the role `Manager` can edit objects related to any studio work.

At which position in the class hierarchy do you configure an Access of Role to Object (ARO) record to satisfy this requirement?

- * UPlusMusic-Production-Work-Brand-Marketing
- * UPlusMusic-Production-Work-Studio-Editing
- * UPlusMusic-Production-Work-Studio-
- * UPlusMusic-Production-Work-

NEW QUESTION 66

What are the two most common ways to expose your application to an external system? (Choose Two)

- * Create a connector linked to a data page.
- * Leverage the Pega API.
- * Configure a signed certificate.
- * Create a web service with the Service wizard.

NEW QUESTION 67

Consider the following requirement: An auditing policy explicitly requires that employees cannot see the contents of complaints made against themselves.

Which security solution do you use to satisfy the requirement?

- * Access of Role to Object
- * Access Control Policy
- * Access When
- * Access Deny

NEW QUESTION 68

What are three valid ways to exchange data through a Pega Web Mashup? (Choose Three)

- * Use an action object configured as a script to perform additional actions on a web mashup gadget.
- * Use the Javascript function doAction() to set or read data values through the hosting web page.
- * Use an SQL call to exchange data between the mashup and hosting web page.
- * Use a queue processor to pass updated attributes to the gadget on the hosting web page.
- * Use the data-pega-event-onpagedata attribute to configure the default value for the gadget.

NEW QUESTION 69

Which two rule types can you mark as a relevant record? (Choose Two)

- * Property
- * Report
- * Skin
- * Section

NEW QUESTION 70

Consider the following requirement: An auditing policy explicitly requires that employees cannot see the contents of complaints made against themselves.

Which security solution do you use to satisfy the requirement?

- * Access Control Policy
- * Access Deny
- * Access of Role to Object
- * Access When

NEW QUESTION 71
