QUESTION 50

Which description of the role of the service preference in the Cisco Conductor is true?

- * It consists of one or more bridge pools and it determines which of these pools, in order of priority, to use for a conference.
- * It determines the conference template to be used for a particular conference based upon alias.
- * It consists of a group of conference aliases and it determines, in order of priority, which alias to choose for a conference.
- * It determines the bandwidth that is supplied by the service provider.

QUESTION 51

Which option is a user policy?

- * authentication
- * admin policy
- * call policy

* Find Me

QUESTION 52

Which two elements of authentication credentials are stored in the local database of the Expressway? (Choose two.)

- * username
- * user authority
- * CA authority
- * crypto hash key
- * password

QUESTION 53

An engineer notices that TMS Conference Control Center is not displaying the interface on a scheduler's computer, but it operates properly on the administrator's computer. Which cause is the most likely?

- * The server domain of the scheduler's computer must be properly configured.
- * .NET or IIS is not set up on the scheduler's computer
- * The network has a port blockage
- * Java must be properly updated and configured on the scheduler's computer

QUESTION 54

Which tool does an engineer use to collect information on system activity, including TCP dumps, of the Conductor over a period of time?

- * diagnostic logging
- * status log
- * network log
- * CDR records

QUESTION 55

An engineer notices that users are inadvertently changing several random settings on endpoints in remote offices. Using TMS, where does the engineer navigate to resolve this issue?

- * Monitoring>Conference Control Center
- * System>Configuration Backup
- * Systems>Provisioning
- * Booking>Conference Templates

QUESTION 56

Which three hybrid connectors allow Cisco Spark to be integrated with an on-premises solution? (Choose three.)

- * Calendar Connector
- * Call Connector
- * Calendar Aware
- * Directory Connect
- * Directory Service
- * Calendar Service

QUESTION 57

Which two statements about branding on the Cisco Meeting Server are true? (Choose two.)

- * With a single branding license, nothing can be customized on the Cisco Meeting Server.
- * With a single branding license, multiple logos and single background on single web bridge can be customized on the Cisco Meeting Server.
- * With a single branding license, multiple logos and multiple backgrounds on multiple web bridges can be customized on the Cisco Meeting Server.
- * With a single branding license, a single logo and single background on a single web bridge can be customized on the Cisco Meeting Server.
- * With a single branding license, a single logo and single background on multiple web bridges can be customized on the Cisco Meeting Server.

QUESTION 58

Which two steps are needed to initially log in to the Cisco Spark Management Portal? (Choose two.)

- * Enter your username and click Sign In.
- * On the next page, enter the password and click Sign In again.
- * From your web browser, navigate to <http://admin.ciscospark.com>
- * From your web browser, navigate to <http://cisco.com/spark>.
- * Enter the password a second time to confirm.

QUESTION 59

Which two options are included in an endpoint registration request message that is sent to a SIP Server?

(Choose two.)

- * SIP Server IP address
- * E.164 URI
- * Endpoint IP address
- * E.164 address
- * SIP URI

QUESTION 60

Which method does the Conductor use to determine the source of an incoming call to a rendezvous type conference?

- * conference IP addresses
- * location IP addresses
- * management IP addresses
- * source IP addresses

QUESTION 61

Which statement about the deployment of Cisco Conductor with Cisco Telepresence Server for Rendezvous Conferences is true?

- * Conductor must be added to the TMS database.
- * A SIP trunk must be established between Conductor and the TelePresence Server.
- * A neighbor zone and search rules must be built between the Expressway and the Conductor.
- * A neighbor zone and search rules must be built between the Expressway and TelePresence Server.

QUESTION 62

Which two statements about subzones are true? (Choose two.)

- * Endpoints are assigned to a particular subzone by their alias or IP subnet.
- * Subzones require the use of endpoint authentication
- * Subzones are used for routing calls to peers in other parts of the network.
- * Endpoints require the use of other endpoints for authentication
- * Subzones are used for bandwidth and authentication control of a logical grouping of endpoints within the registration list of the Expressway

QUESTION 63

Which two statements about the assignment of endpoints to a subzone are true? (Choose two.)

- * A registration restriction rule must be configured that matches the endpoint's alias or IP subnet.
- * Endpoints making a traversal call must be registered to the traversal subzone.
- * By default, all endpoints are registered to the default subzone.
- * By default, all endpoints are registered to the neighbor subzone.
- * A subzone membership rule must be configured that matches the endpoint's alias or IP subnet.

QUESTION 64

Where does an engineer look for a list of all endpoints registered to an Expressway?

- * Status > Registrations > By Device
- * Configuration > Registrations > Registration List

C Registrations can only be found in the CLI interface.

- * Status > Calls > Call History

QUESTION 65

Which SIP message is sent from the called endpoint after the call request is accepted?

- * 200 OK
- * 200 OK
- * 200 OK
- * 404 OK

QUESTION 66

Which two methods are used by the Expressway for bandwidth control? (Choose two)

- * subzones
- * URL
- * regions
- * zones
- * pipes

QUESTION 67

Where must TURN servers be configured in a resilient and scalable Cisco Meeting Servers solution?

- * CMS core only
- * CMS core, CMS edge, and Cisco Unified Communications Manager
- * CMS edge only
- * CMS core and CMS edge

QUESTION 68

Which two ports are used for SIP communications between an endpoint and the SIP server? (Choose two.)

- * 5061 (TLS)
- * 1719 (TCP)
- * 1720 (TCP)
- * 5060 (TCP)
- * 1721 (TLS)

QUESTION 69

An engineer must match any incoming call to the Expressway that is searching for an

E.164 address of only 6 digits and append the domain cisco.com to the end. Which pattern match and replace string using regular expressions accomplish this task? (Choose two.)

- * pattern match: ({6}*)
- * pattern match ({6}d)
- * pattern match ({5}d)
- * replace string: 6@cisco.com
- * replace string: 1@cisco.com
- * replace string: @\$cisco.com

QUESTION 70

Which information can be retrieved from the Cisco event log on the Telepresence Server?

- * view and sort through conferencing events
- * view upcoming conferences
- * view registration events
- * view packet loss, jitter, and latency of a call

QUESTION 71

Where in the TMS application does an engineer add individual endpoints or infrastructure to the TMS database?

- * System > Navigator
- * System > System Overview
- * System > Provisioning
- * System > Manage Dial Plan

QUESTION 72

Which statement about setting up a call bridge cluster for a resilient and scalable Cisco Meeting Server deployment is true?

- * Call bridges can connect to databases in full mesh.
- * Call bridges only connect to the master database.
- * Only one call bridge should be configured per domain in a database cluster.
- * Call bridges can read/write to any database in a cluster at anytime.

QUESTION 73

An engineer wants to add a domain to a numeric E.164 alias dialed by an H.323 endpoint. Which option is the Cisco recommended method to add this domain in the Expressway configurations?

- * call policy
- * service preference
- * user policy
- * transforms
