[2024] IN101_V7 Exam Dumps, Test Engine Practice Test Questions [Q59-Q77]

[2024] IN101_V7 Exam Dumps, Test Engine Practice Test Questions
Pass IN101_V7 exam [May 31, 2024] Updated 115 Questions

BICSI Installer 1 certification is widely recognized in the ICT industry and is highly valued by employers. BICSI Installer 1 Exam certification demonstrates that the holder has the necessary skills and knowledge to install cabling systems in a safe and efficient manner, and can troubleshoot and resolve issues that may arise during the installation process. BICSI Installer 1 Exam certification is also a valuable asset for professionals looking to advance their careers in the ICT industry, as it demonstrates a commitment to ongoing professional development and a dedication to excellence in the field.

Q59. Which of the following is the primary benefit of using wall-mounted racks and cabinets in place of traditional equipment racks?

- * Provides equipment with a higher level of protection
- * Allows for the equipment to be easily rearranged
- * Optimizes airflow within the equipment room
- * Takes up less space within the equipment room

Q60. Which of the following quantifies the bandwidth of a cabling system in a frequency range of interest?

- * Megabits
- * Volt-amperes
- * Megahertz
- * Kilowatt hours

Q61. Light pulses in optical fiber cables are subjected to a loss in power as the light pulses travel along the optical fiber. Which of the following terms is used to describe this phenomenon?

- * Attenuation
- * Grounding
- * Crosstalk
- * Frequency

Q62. What is the primary purpose of firestopping?

- * Increase a facilities ability to detect fires
- * Reestablish the barrier's fire rating
- * Restore the barrier's original load-bearing capacity
- * Suppress fires before they can spread

Q63. If you are working on a catwalk, you are required to wear _____?

- * Full body harness and two lanyards
- * Nothing, your fine on the catwalk
- * Safety belt

Q64. Which of the following fire ratings refers to the time period that the unexposed surface of a firestop assembly does not exceed 180 degrees C (325 degrees F) above its initial temperature?

- * E rating
- * FT rating
- * FH rating
- * S rating

Q65. A purple backboard should be used to identify _____?

- * Common equipment
- * Demarcation point
- * Network connections
- * Horizontal cable

Q66. Two truck drivers are communicating over a Citizens Band (CB) radio. Only one driver can send a message at a time with this system.

What type of transmission method is used in this example?

- * Simplex
- * Half-duplex
- * Full duplex

Q67. How long does it take someone to form a first impression?

- * 10 to 15 seconds
- * 1 to 2 minutes
- * 5 to 10 minutes
- * 30 minutes to 1 hour

Q68. What is the bend radius requirement for optical fiber cable when the cable is at rest?

- * 10 times the cables outside diameter
- * 15 times the cables outside diameter
- * 20 times the cables outside diameter

Q69. What is the maximum pull force for four-strand optical fiber?

- * 222N (50 lbf)
- * 330 N (75lbf)
- * 880 N (200 lbf)

Q70. What method of transmission is used to transmit signals during a telephone call?

- * Simplex
- * Half-duplex
- * Full duplex

Q71. Which of the following results from the different optical path lengths in a multimode fiber?

- * Modal dispersion
- * Chromatic dispersion
- * Attenuation

Q72. Which of the following is a benefit of air-blown optical fiber cable?

- * It requires less testing than other types of cables
- * It can be recovered and reused
- * It is significantly cheaper than other types of cables

Q73. Which of the following PPE items **MUST** be worn at all times when you are working with or handling OF?

- * Fall Protection
- * Eye Protection
- * Hearing Protection
- * Breathing Protection

Q74. What is the size of a rack-mounted unit (RMU)?

- * 25 mm (1″)
- * 38 mm (1.5″)
- * 45 mm (1.75″)
- * 50 mm (2″)

Q75. Which of the following topologies is the recommended topology for distribution systems in campus environments?

- * Hierarchical Star
- * Star
- * Tree
- * Ring

Q76. Which of the following is used to measure the length of a 4-pair cable?

- * Time domain reflectometer (TDR)
- * Pair scanner
- * Cable-end locator kit
- * Tone generator

Q77. Which of the following are typically used to support cables between a cable tray and work area outlets?

- * J-Hook
- * Innerduct
- * Pipe hanger
- * Trapeze
